
BIENNIAL REPORT
OF THE
SURVEYOR-GENERAL
OF THE
STATE OF CALIFORNIA

FOR THE TERM ENDING AUGUST 1, 1924

CALIFORNIA STATE PRINTING OFFICE
FRANK J. SMITH, State Printer
SACRAMENTO, 1924

34874

BIENNIAL REPORT OF THE SURVEYOR GENERAL.

STATE OF CALIFORNIA,
OFFICE OF THE SURVEYOR GENERAL,
SACRAMENTO, September 29, 1924.

*To His Excellency, F. W. RICHARDSON,
Governor of the State of California.*

SIR:

I have the honor to herewith submit a report covering the work of this office for the term ending August 1, 1924.

DURING THE PAST BIENNIUM

Fees and royalties amounting to \$12,847 were collected by the Surveyor General and Register of the State Land Office, as provided by sections 501 and 3574 of the Political Code and chapter 303, Statutes of California, 1921, and paid into the state treasury and placed to the credit of the general fund.

56,939 acres of state school lands were leased for a rental of \$8,010 under the provisions of chapter 493, Statutes of California, 1917, recommended by me, 94 leases being executed. Prior to that date, no revenue was received through the rental of school lands.

20,789 acres of lieu school lands were sold through the sale of scrip purchased under the provisions of section 3408*d* of the Political Code for the sum of \$137,456, an average of \$6.61 per acre. Prior to the enactment of section 3408*d*, recommended by me, the state received \$1.25 an acre.

Public auction sales of school lands were held under the provisions of chapter 207, Statutes of California, 1919, in the counties of Shasta, Riverside, San Bernardino, San Diego, Imperial, Yolo, Solano, Napa, Sonoma, Lassen, Modoc, Del Norte, Humboldt, Mendocino, Sierra, Nevada, Plumas and Alpine, 67,324 acres being sold for \$202,807, an average of \$3.01 per acre. Prior to the enactment of legislation recommended by me, the state received \$1.25 an acre for such land.

40 acres of state school land were sold under the provisions of chapter 208, Statutes of California, 1919, for \$10,000, being \$250 an acre, and 197 acres were sold for \$985, being \$5 an acre. Prior to the enactment of legislation recommended by me, the state received \$1.25 an acre.

251.21 acres of sovereign lands in the bed of Clear Lake were sold under the provisions of chapter 142, Statutes of California, 1923, for \$7,536.30, being \$30 an acre. Prior to the enactment of chapter 142, recommended by me, the state received \$2.50 an acre.

669 applications to purchase 93,480 acres of state lands were filed.

1392 reports of county treasurers, made under the provisions of section 3422 of the Political Code, showing the receipt of \$155,686 paid for state lands, were received

and entered on the records of this office, as provided in section 3423 of the Political Code.

3451 acres of lake lands were leased for a rental of \$8,628 under the provisions of chapter 612, Statutes of California, 1911, recommended by me, 11 leases being executed. Prior to that date, the state received no revenue for that class of lands.

4730 acres of submerged lands were leased under the provisions of chapter 829, Statutes of California, 1921, for a rental of \$946, one lease being executed.

56 lists and patents conveying 62,080 acres of land from the United States to the state were recorded in this office, as provided in section 3405 of the Political Code.

621 certificates of purchase for 89,114 acres of state lands were issued under the provisions of section 3514 of the Political Code.

481 patents for 72,295 acres of state lands were issued under the provisions of section 3519 of the Political Code.

165 land surveyors' licenses were issued under the provisions of chapter 247, Statutes of California, 1907.

County registrars of land titles in sixteen counties in the state operating under "An act to amend an act entitled 'An act for the certification of land titles and the simplification of transfer of real estate,' approved March 17, 1897," Statutes of California, 1915, page 1932, reported to this office the number of registrations and of certificates of title issued, which reports were embodied in reports made by this office under the provisions of chapter 800, Statutes of California, 1917.

49 duplicate certificates of purchase were issued under the provisions of section 3518 of the Political Code.

95 certificates of status of state lands, 164 certified copies of records and 23 certified copies of records of patents were issued.

230 indemnity state selections were made under the provisions of section 3398 of the Political Code.

141 certified lists of lands sold by the state were issued under the provisions of section 3659 of the Political Code

65 statements of delinquencies were issued as provided by section 3546 of the Political Code.

Surveys, maps and tablings made under the provisions of chapter 612, Statutes of California, 1911, amounting to 10 in number, were checked.

Surveys, maps and tablings made under the provisions of chapter 490, Statutes of California, 1915, amounting to 2 in number, were checked.

Surveys of 65 camp sites in section 16, T. 1 N., R. 10 W., S. B. M., were made for the purpose of leasing under the provisions of chapter 493, Statutes of California, 1917.

An extensive study of the prevalence of oil upon the beaches along the coast of California was made, as provided by Assembly Concurrent Resolution No. 23, chapter 82, Statutes of California, 1923, and a report is in course of preparation.

An investigation to determine what public lands of the State of California in national foresees are more valuable for timber than for any other purpose and subject to exchange for United States lands, as provided in chapter 229, Statutes of California, 1923, has been made and the acreage is estimated at 50,000.

The lands are scattered in 22 counties and an exchange thereof for United States lands in a compact body, as permitted by an act of congress of March 20, 1922 (Public No. 173), would result in a gain to the state of at least \$250,000, the reason therefore being that the state lands being scattered, have not the value that the same number of acres in a compact body would have.

The scattered state lands would have as great a value to the United States as the United States lands exchanged, for the reason that the United States could consolidate the scattered state lands with the United States lands thereby making a compact body of United States lands.

The cost of making the exchange is estimated at \$25,000, the United States requiring the state to advertise the state lands together with the United States lands in the counties in which the lands are located, also requiring the state to furnish abstracts of title covering the 50,000 acres, and requiring the state to pay \$624 fees.

If the provisions of chapter 229 are to be carried out, provisions for the expense must be made.

Ten thousand letters have been written during the two years.

Classification of 556,527 acres of state land was made under the provisions of chapter 303, Statutes of California, 1921.

24 lists of persons licensed as land surveyors were transmitted to each of the 58 county recorders in the state as provided by section 4 of chapter 247, Statutes of California, 1907, a total of 1392 lists being transmitted.

Tabulated statements follow:

GENERAL OFFICE BUSINESS

Amount of fees and royalties collected by Surveyor General and Register of the State Land Office from August 1, 1922, to August 1, 1924, and paid into the state treasury; to the credit of the general fund, or to the Secretary of State:

Totals.....	481	72,295.92

LAND SURVEYORS LICENSED

Licenses issued to land surveyors from August 1, 1922, to August 1, 1924, numbered 165.

LAND TITLE LAW

Pursuant to the provisions of chapter 800, Statutes of California, 1917, I beg to report that on August 1, 1923, certificates of title had been issued pursuant to the registration of land titles under "The Torrens Law" in sixteen of fifty-eight counties of the State of California, the registrars of the sixteen counties having registrations reporting as follows:

Alameda County.

94 certificates, which includes all transfers, issued up to August 1, 1923.

Fresno County.

2 certificates issued up to August 1, 1923.

Humboldt County.

163 certificates issued up to August 1, 1923.

Imperial County.

230 certificates issued up to August 1, 1923.

Kern County.

30 certificates issued up to August 1, 1923.

Los Angeles.

22,519 certificates issued up to August 1, 1923.

Orange County.

2,765 certificates issued up to August 1, 1923.

Riverside County.

117 certificates issued up to August 1, 1923.

San Bernardino County.

970 certificates issued up to August 1, 1923.

San Diego County.

1,954 certificates issued up to August 1, 1923.

San Francisco County.

8 certificates issued up to August 1, 1923.

Santa Barbara County.

102 certificates issued up to August 1, 1923.

Santa Cruz County.

9 certificates issued up to August 1, 1923.

Sonoma County.

196 certificates issued up to August 1, 1923.

Tulare County.

36 certificates issued up to August 1, 1923.

Ventura County.

1 certificate issued up to August 1, 1923.

The Torrens act provides that upon the original registration of any land, a sum equal to one-tenth of one per cent of the assessed value of the land including permanent improvements thereon as the same were valued for county taxation the last time said land and permanent improvements of either thereof were assessed for county taxes next preceding the filing of the petition shall be collected by the registrar and paid to the State Treasurer to be credited to the "Torrens Title Assurance Fund." The books of the State Treasurer show that on August 1, 1923, the "Torrens Title Assurance Fund" contained State of California Harbor Improvement 4 per cent bonds having a face value of \$23,000, which were purchased for the benefit of said fund, for the sum of \$22,255.19, and that the amount of cash in said fund on August 1, 1923, was \$258.70.

LAND TITLE LAW

Pursuant to the provisions of chapter 800, Statutes of California, 1917, I beg to report that the registrars of titles in sixteen counties of the state in which registration of land have been made up to August 1, 1924, advised me as follows:

Alameda County.

Relative to the total number of registrations or certificates of title issued, will advise that there were no new certificates issued – only transfers during 1924.

In 1923 the registrar reported 94 certificates issued, including all transfers, up to August 1, 1923.

Fresno County.

The registrar of Fresno County made no report this year but in 1923 he reported that two certificates were issued up to August 1, 1923.

Humboldt County.

“The total number of Torrens certificates of title issued up to August 1, 1924, is 182.”

Imperial County.

“Our total number of Torrens certificates up to August 1, 1924, is 244.”

Kern County.

We have four registrations Torrens Act and this office has issued 43 certificates to August 1, 1924.

Los Angeles.

The total number of certificates issued under the Land Registration Act (Torrens) up to August 1, 1924, was 28,853, and the total number of documents filed for record in said department from August 1, 1923, to August 1, 1924, was 19,217.

Orange County.

905 parcels of land have been registered under the Land Title Law of California in this county; and 3496 certificates of title issued up to August 1, 1924.

Riverside County.

“The total number of certificates issued in this county up to August 1, 1924, are 130, and no new decrees issued since February 6, 1923, and as the number of said certificates was 110 you will see that we have only issued 20 continuation-certificates since that date.”

San Bernardino County.

The total number of registrations under the Registered Land Title Law, up to August 1st, is 475.

San Diego County.

The total number of certificates of title issued up to August 1, 1923, is 2187.

San Francisco County.

During the entire life of the Torrens Act there have been filed in this department but five original decrees. Nine certificates of title have been issued.

Santa Barbara County.

"We have 176 certificates of title to date."

Santa Cruz County.

There has been one registration under the Torrens system in our office and we have issued ten certificates of title.

Sonoma County.

Up to August 1, 1924, there had been 219 certificates of title issued, 230 documents filed and no new registrations, leaving the total separate parcels of land registered at 84.

Tulare County.

"Total number of certificates issued 38."

Ventura County.

The registrar of Ventura County made no report this year but in 1923 he reported that one certificate was issued up to August 1, 1923.

The Torrens act provides that upon the original registration of any land, a sum equal to one-tenth of one per cent of the assessed value of the land including permanent improvements thereon as the same were valued for county taxation the last time said land and permanent improvements of either thereof were assessed for county taxes next preceding the filing of the petition shall be collected by the registrar and paid to the State Treasurer to be credited to the "Torrens Title Assurance Fund." The books of the State Treasurer show that on August 1, 1924, the "Torrens Title Assurance Fund" contained State of California Harbor Improvement 4 per cent bonds having a face value of \$23,000, which were purchased for the benefit of said fund, for the sum of \$22,255.19, and that the amount of cash in said fund on August 1, 1924, was \$1,605.56.

Respectfully submitted.

W. S. KINGSBURY,
Surveyor General.

LAWS GOVERNING THE SALE OF
SCHOOL LANDS, AND THE LEASING OF LANDS,
OF THE STATE OF CALIFORNIA

Together with Rules, Regulations and Information Concerning
Same

And

LIST OF THE VACANT SCHOOL LANDS ON SEPTEMBER 29, 1924.

LAW GOVERNING THE SALE OF SCHOOL LAND UNSUITABLE FOR CULTIVATION.

CHAPTER 207.

An act to amend an act entitled "An act providing for the sale of certain state lands," approved May 19, 1915, by extending the provisions thereof to certain lands heretofore reserved from sale, and by providing for the sale or exchange of such lands.

[Approved May 6, 1919.]

The people of the State of California do enact as follows:

SECTION 1. An act entitled "An act providing for the sale of certain state lands," approved May 19, 1915, is hereby amended to read as follows:

Section 1. The unsold portions of the sixteenth and thirty-sixth sections of school lands not included within the five hundred thousand acres granted to the state for school purposes, and the unsold portions of the listed lands selected of the United States in lieu of the sixteenth and thirty-sixth sections and losses to the school grant which are not suitable for cultivation shall be sold at public auction to the citizens of the United States by the surveyor general under rules and regulations prescribed by him, payment to be made as follows: The full purchase price of the land, or ten per cent thereof and interest to the first day of January following at the rate of six per cent per annum on the unpaid balance of the purchase price, to be paid at the time of sale; the unpaid balance of the purchase price shall bear interest at the rate of six per cent per annum, payable in advance on the first day of each year, at which time the purchaser may pay as many one-tenths of the purchase price as he may desire; *provided*, that the legislature may require the payment of the unpaid balance of the purchase price within five years after the passage of an act requiring such payment. All payments to be made to the county treasurer of the county in which the land is situated.

SEC. 2. From and after the date upon which this act takes effect, the surveyor general may sell in like manner and upon like conditions as to payment and interest any of the lands heretofore reserved from sale by the provisions of section three thousand four hundred eight *b* of the Political Code which have not been used as bases for indemnity selections, as provided in section three thousand four hundred six *a* of said code, or otherwise disposed of under any law of this state; *provided, however*, lands which in his judgment contain growth valuable for forest-cover protection to watersheds, or are valuable for reservoir sites, shall not be sold or exchanged under the provisions of this act.

Whenever he shall deem it to the advantage of the state so to do, he may, with the concurrence of the United States of equal area, pursuant to law, any of said reserved lands in place, and the lands so acquired in exchange may be thereafter sold in the same manner and upon like conditions as to payment and interest as hereinabove set forth. Nothing herein contained shall be construed to affect the right of the surveyor general to use as bases for indemnity scrip, as provided in sections three thousand four hundred six *a*, three thousand four hundred eight *b*, three thousand four

hundred eight c, and three thousand four hundred eight d of the Political Code, and of said reserved lands not otherwise disposed of under the provisions of this act.

SEC. 3. Whenever any person shall make actual settlement, in good faith, upon any such land, with intent to purchase the same pursuant to the provisions of an act entitled "An act providing for the sale of certain state lands suitable for cultivation," approved May 19, 1915, and the surveyor general shall, thereafter, upon an examination of such lands, determine it to be unsuitable for cultivation, he may, with the concurrence of the state board of control, fix a price at which such land may be sold to such actual settler, as provided in the act last named, and such actual settler shall have the right to purchase such land, at the price so fixed, at any time within a period of six months thereafter. The purchase price of all timber lands shall be paid in full at the time of sale.

SEC. 4. In any and all notices of public sale, the surveyor general shall reserve the right to reject any and all bids.

SEC. 5. When the full purchase price has been paid the purchaser shall be entitled to a patent for the land.

SEC. 6. Those parts of all acts in conflict with this act are hereby repealed.

LAW GOVERNING THE SALE OF SCHOOL LAND SUITABLE FOR CULTIVATION.

CHAPTER 208.

An act to amend an act entitled "An act providing for the sale of certain state lands suitable for cultivation," approved May 19, 1915.

[Approved May 6, 1919.]

The people of the State of California do enact as follows:

SECTION 1. An act entitled "An act providing for the sale of certain state lands suitable for cultivation," approved May 19, 1915, is hereby amended to read as follows:

Section 1. The unsold portions of the sixteenth and thirty-sixth sections of school lands not included within the exterior boundaries of national reservations, the unsold portions of the five hundred thousand acres granted to the state for school purposes, and the unsold portions of the listed lands selected of the United States in lieu of the sixteenth and thirty-sixth sections and losses to the school grant, which are suitable for cultivation shall be sold to actual settlers in quantities not exceeding three hundred twenty acres to any one person under the provisions of section three thousand four hundred ninety-five of the Political Code, at a price to be fixed by the state board of control and the state surveyor general, payment to be made as follows: The full purchase price of the land, or ten per cent thereof and interest to the first day of January following, at the rate of six per cent per annum on the unpaid balance of the purchase price; the unpaid balance of the purchase price shall bear interest at the rate of six per cent per annum, payable in advance on the first day of each year, at which time the purchaser may pay as many one-tenths of the purchase price as he may desire;

provided, that the legislature may require the payment of the unpaid balance of the purchase price within five years after the passage of an act requiring such payment.

Sec. 2. Actual settlers, within the meaning of this act, are persons who have resided in good faith on the land for a period of not less than one year, to the exclusion of any other residence or fixed place of habitation during such time.

Sec. 3. Any person who shall in good faith settle upon any land in the belief that the same was suitable for cultivation shall, in the event the surveyor general, upon inspection, determines said land to be unsuitable for cultivation, be a preferred purchaser for a period of six months from the date of such decision; *provided*, that in cases where the surveyor general has heretofore decided that lands settled upon were unsuitable for cultivation said settlers shall be preferred purchasers for a period of six months from the date that this act takes effect.

LAW GOVERNING THE LEASING OF SCHOOL LANDS FOR AGRICULTURAL, GRAZING AND RECREATIONAL PURPOSES.

CHAPTER 493.

An act providing for the leasing of certain state lands and making an appropriation for the purposes of this act.

[Approved May 17, 1917.]
(Effective July 27, 1917.)

The people of the State of California do enact as follows:

SECTION 1. Any person, firm or corporation desiring to lease any of the unsold portions of the sixteenth and thirty-sixth sections of school lands and the unsold portions of the listed lands selected from the public lands of the United States in lieu of the sixteenth and thirty-sixth sections and losses to the school grant must make application therefore to the surveyor general of the state, describing the lands sought to be leased by legal subdivisions. The application must be accompanied by the filing fee of five dollars. All applications to lease lands under this act shall be approved or rejected by the surveyor general within ninety days after the receipt thereof.

SEC. 2. Upon receipt of an application to lease any of the lands under this act the surveyor general shall appraise such lands and fix the annual rental per acre therefore; such charge to be approved by the state board of control.

SEC. 3. Whenever any lease is delivered to the applicant by the surveyor general the lessee shall within fifteen days thereafter, execute and return such lease to the state surveyor general and make payment of the first annual rental. The surveyor general shall receive the money and give receipt therefore. All subsequent payments of rental must be paid to the state surveyor general in like manner fifteen days after they become due. In case payments are not made as herein provided, the lease and all rights thereunder shall cease and terminate.

SEC. 4. No lease shall be for a period longer than ten years, and such lease shall terminate upon the sale of said lands, or any portion thereof, by the state and the

lessee shall be notified by registered mail by the state surveyor general upon the sale of said land at public auction to the highest bidder as provided in that certain act entitled "An act providing for the sale of certain state lands," approved May 19, 1915. The date of termination of the lease shall be on the date the certificate of purchase is issued to the purchaser of the land from the State of California by the register of the state land office, except when a lease embraces land suitable for cultivation and an application from an actual settler to purchase said land is received and filed by the surveyor general, then the lease shall terminate on the date said application is filed of record in the surveyor general's office and the lessee is to be notified by registered mail of the filing of said application to purchase said land, or any portion thereof, from the state and of the termination of the lease. Possession under any lease hereby authorized shall not be held, deemed or construed to be adverse to that of any person who becomes an actual settler upon any portion of land in such lease described, with intent to purchase the same in the manner provided by law.

SEC. 5. Any lease for sixteenth and thirty-sixth sections or any portion thereof which may not or may hereafter be included within the exterior boundaries of a national reservation or of a reserve, or within the exterior boundaries of lands withdrawn from public entry, shall terminate whenever the State of California shall designate said lands as bases for indemnity selections as provided by law. The lessee is to be notified by the surveyor general by registered mail whenever the State of California designates the land as bases for indemnity selection or selections.

SEC. 6. If a lease is terminated by reason of the filing of an application to purchase land suitable for cultivation, or by the sale of land at public auction, or by the designation of land as bases for indemnity selection or selections, the lessee shall surrender the lease to the surveyor general and receive in exchange therefore from the surveyor general a certificate showing the proportionate amount of annual payment to be refunded to the lessee, for the tract or tracts of land that have been disposed of by the State of California, and the state controller, upon the surrender to him of the said surveyor general's certificate, with approval of the board of control endorsed thereon, shall issue to the lessee a warrant for the said amount payable out of the state school land fund and the state treasurer shall pay the same. If all the tracts of land described in said surrendered lease have not been disposed of by the state, the lessee shall be entitled, without the payment of any additional fee, to a new lease for the remaining tracts of land for the balance of the unexpired term of the surrendered lease, at the same annual rental per acre.

SEC. 7. The surveyor general is hereby authorized to prepare, make, execute and deliver all papers, instruments, and documents and to do any and all things necessary to carry to the provisions of this act.

SEC. 8. All moneys received as rental for such lands above mentioned shall be paid into the state school land fund.

SEC. 9. There is hereby appropriated out of any moneys in the state treasury to the credit of the state school land fund, not otherwise appropriated, the sum of three thousand dollars, or so much thereof as may be necessary, to be used in refunding unearned rentals under the provisions of section six of this act.

**LAW GOVERNING THE GRANTING OF PERMITS AND LEASES TO PROSPECT
FOR AND TAKE MINERALS FROM STATE LANDS.**

CHAPTER 303.

An act to reserve all minerals in state lands; to provide for examination, classification and report on the mineral and other character of state lands; to provide for the granting of permits and leases to prospect for and take any such minerals; to provide for the rents and royalties to be paid, and granting certain preference rights; to provide for the making of rules, regulations and contracts necessary to carry out the purposes of this act; and repealing acts or parts of acts in conflict herewith; providing for an appropriation to defray the cost of administering this act.

[Approved May 26, 1921.]

The people of the State of California do enact as follows:

SECTION 1. All coal, oil, oil shale, gas, phosphate, sodium, and other mineral deposits in lands belonging to the state, or which may become the property of the state, are hereby reserved to the state; *provided, however*, that nothing in this act shall apply to lands acquired by the state on a sale of delinquent taxes, except such land, the deed for which is required to be filed in the surveyor general's office. Such deposits are reserved from sale except upon a rental and royalty basis, as herein provided for; and a purchaser of any lands belonging to the state, or provided for; and a purchaser of any lands belonging to the state, or which may become the property of the state, shall acquire no right, title or interest in or to, such deposits except as hereinafter expressly provided; and the right of such purchaser shall be subject to the reservation of all coal, oil, oil shale, gas, phosphate, sodium, and other mineral deposits, and to the conditions and limitations prescribed by law providing for the state and persons authorized by it to prospect for, mine, and remove such deposits, and to occupy and use so much of the surface of said land as may be required for all purposes reasonably extending to the mining and removal of such deposits therefrom.

SEC. 2. All applications to purchase state lands which may be filed subsequent to the passage of this act, and all sales shall be subject to and contain a reservation to the state of one-sixteenth of all coal, oil, gas, and other mineral deposits in all land so acquired, as hereinafter provided for, and all certificates of purchase and patents issued therefore, shall contain such reservation.

SEC. 3. The surveyor general may from time to time classify any or all state land for its different possible values and uses, and, when he deems it advisable, may require the state mineralogist, director of agriculture or other organization, agency or institution of the state government to make such officer, organization, agency or institution to make such classification and to render a report thereon upon the application of the surveyor general.

SEC. 4. The surveyor general is hereby authorized, upon the payment to him of fifty cents per acre, for each acre in the area embraced within the boundaries of the lands proposed to be prospected and under such rules and regulations as he may prescribe, to grant to any person or association of persons, who are residents of the

State of California and citizens of the United States or who have declared their intention of becoming such, or corporations ninety per cent of whose stockholders are citizens of the United States a prospecting permit, which shall give the exclusive right, for a period not exceeding two years, to prospect for oil or gas, upon not exceeding six hundred forty acres of land wherein such deposits of oil or gas belong to the state and are not within any known geological structure of a producing oil or gas field, upon condition that the permittee shall begin drilling operations within six months from the date of the permit, and shall within one year from and after the date of the permit, and shall within one year from and after the date of the permit, drill one or more wells for oil or gas to a depth of not less than one thousand feet each, unless valuable deposits of oil or gas shall be sooner discovered, and shall, within two years from the date of the permit, drill for oil and gas to an aggregate depth of not less than two thousand feet unless valuable deposits of oil and gas shall be sooner discovered. The surveyor general may, if he shall find that the permittee has been unable with the exercise of diligence to test the land in the time granted by the permit, extend any such permit for such time, not exceeding two years, and upon such conditions as he shall prescribe. Whether the lands sought in any such application and permit are surveyed or unsurveyed the applicant shall, prior to filing his application for permit, locate such land in a reasonable compact form and according to the legal subdivisions of the public land surveys if the land be surveyed; and in an approximately square or rectangular tract, if the land be an unsurveyed tract, the length of which shall not exceed two and one-half times its width; the land to be surveyed by the surveyor general at the expense of the applicant for the permit in such form as the surveyor general shall deem to be the best interest of the state; *provided, however,* that in case of prospecting permits and leases to river beds, lake beds, overflowed, tide and submerged lands, the width or length of the prospecting permit or lease along the shore line, measured on an east and west or north and south line, shall not exceed one-quarter mile. If the applicant shall cause to be erected upon the land for which a permit is sought a monument not less than four feet high, at some conspicuous place thereon, and shall post a notice in writing on or near said monument, stating that an application for permit will be made within thirty days after the date of posting said notice, giving the name of the applicant, the date of the notice, and such a general description of the land to be covered by such permit by reference to courses and distances from such monument as will reasonably identify the land, stating the amount thereof in acres, he shall during the period of thirty days following such marking and posting, be entitled to a preference right over others to a permit for the land so identified; *provided, however,* that applicant shall, as a part of his application for a permit, show that within two days after the posting of the said notice, he recorded a copy of the same in the county recorder's office of the county in which the said land is situated. The applicant shall, within ninety days after receiving a permit, mark each of the corners of the tract described in the permit upon the ground with substantial monuments, so that the boundaries can be readily traced on the ground, and shall post in a conspicuous place upon the lands a notice that such permit has been granted and a description of the lands covered thereby; *provided, however,* that where the boundaries of the land sought to be prospected or developed under lease are wholly or partially in river or lake beds, overflowed, tide and submerged lands, the notice shall be conspicuously posted on a monument as close to the corner of the land as possible and

shall specifically describe the area to be developed by courses and distances so that the limits of the area can be easily determined; *provided further, however*, that in no case shall permits or leases be granted covering tide, overflowed or submerged lands fronting on an incorporated city, or for a distance of one mile on either side thereof; *provided further, however*, that in case of an application for a permit or a lease covering tide, overflowed or submerged land by anyone other than a littoral or riparian proprietor, said littoral or riparian proprietor shall have six months within which to file an application for a permit or lease, but if said littoral or riparian proprietor fails to comply with the requirements of this act and its rules and regulations made in pursuance hereof, his preferential rights shall thereupon cease and forever be terminated, and the original applicant shall be permitted to proceed with his application.

SEC. 5. Upon establishing to the satisfaction of the surveyor general that valuable deposits of oil or gas have been discovered within the limits of the land embraced in any permit, the permittee shall be entitled to a lease for one-fourth of the land embraced in the prospecting permit; *provided*, that the permittee shall be granted a lease for as much as one hundred sixty acres of said lands, if there be that number of acres within the permit. The area to be selected by the permittee shall be in compact form and if surveyed, to be described by the legal subdivision of the public land surveys; if unsurveyed, to be surveyed by the surveyor general at the expense of the applicant for lease in accordance with rules and regulations to be prescribed by the surveyor general, and the lands leased shall be conformed to and taken in accordance with the legal subdivisions of such surveys; deposits made to cover the expense of survey shall be deemed appropriated for that purpose, and any excess deposit may be repaid to the person or persons making such deposits or their legal representative. Such lease shall be for a term of twenty years upon a royalty of five per centum in amount or value of the production and the annual payment in advance of a rental of one dollar per acre, the rental paid for any one year to be credited against the royalties as they accrue for that year, with the right of renewal as prescribed in section eight hereof. The permittee shall also be entitled to a preference right to a lease for the remainder of the land in his prospecting permit at a royalty of not less than twelve and one-half per centum in amount or value of the production, and under such other conditions as are fixed for oil or gas leases in this act, the bonus and royalty to be determined by competitive bidding or fixed by such other method as the surveyor general may by regulations prescribe; *provided*, that the surveyor general shall have the right to reject any and all bids.

SEC. 6. Until the permittee shall apply for lease to the one quarter of the permit area heretofore provided for he shall pay to the State of California twenty per centum of the gross value of all oil or gas secured by him from the lands embraced within his permit and sold or otherwise disposed of, or held by him for sale or other disposition.

SEC. 7. All permits and leases of lands containing oil or gas, made or issued under the provisions of this act, shall be subject to the condition that no wells shall be drilled within two hundred feet of any of the outer boundaries of the lands so permitted or leased, unless the adjoining lands have been patented or the title thereto otherwise vested in private owners, and to the further condition that the permittee or lessee will, in conducting his explorations and mining operations, use all reasonable precautions to prevent waste of oil or gas developed in the land, or the entrance of water through wells drilled by him to the oil sands or oil bearing strata, to the destruction or injury of the oil

deposits. Violations of the provisions of this section shall constitute grounds for the forfeiture of the permit or lease, to be enforced through appropriate proceedings in courts or competent jurisdiction.

SEC. 8. All unapportioned deposits of oil or gas situated within the known geologic structure of a producing oil or gas field and the unentered lands containing the same not subject to preferential lease, may be leased by the surveyor general to the highest responsible bidder by competitive bidding under general regulations to qualified applicants in areas not exceeding six hundred forty-acres and in tracts which shall not exceed in length two and one-half times the width, the surveyed land to be leased according to legal subdivisions, the unsurveyed land to be surveyed by the surveyor general shall deem to be the best interest of the state; *provided, however*, that in case of leases to river bed, lake bed, overflowed, tide and submerged lands, the width or length of the lease along the shore line, measured on an east and west or north and south line, shall not exceed one-quarter mile, such leases to be conditioned upon the payment by the lessee of such bonus as may be accepted and of such royalty as may be fixed in the lease, which shall not be less than twelve and one-half per centum in amount or value of the production, and the payment in advance of a rental of not less than one dollar per acre per annum thereafter during the continuance of the lease, the rental paid for any one year to be credited against the royalties as they accrue for that year. Leases shall be for a period of twenty years, with the preferential right in the lessee to renew the same for successive periods of ten years upon such reasonable terms and conditions as may be prescribed by the surveyor general, unless otherwise provided by law at the time of the expiration of such periods.

Whenever the average daily production of any oil well shall not exceed ten barrels per day, the surveyor general is authorized to reduce the royalty on future production when in his judgment the wells can not be successfully operated upon the royalty fixed in the lease. The provisions of this paragraph shall apply to all oil and gas leases made under this act.

SEC. 9. The right to prospect, and lease lands containing any other minerals shall be acquired in a similar manner as the right to prospect for and develop oil and gas, under such reasonable and proper rules and regulations, as the surveyor general shall from time to time prescribe.

SEC. 10. For the purpose, however, of promoting the sale of state land, and the more active cooperation of the owner of the soil, and to facilitate the development of its mineral resources the state hereby constitutes the purchaser of the soil, its agent for the purposes herein named and in consideration hereof, relinquishes to and vests in the purchaser of state lands an undivided fifteen-sixteenths of all oil and gas and the value of the same that may be upon or within any state land purchased after the passage of this act. The purchaser of the soil is hereby authorized to sell or lease to any person, firm or corporation the oil and gas and other minerals that may be thereon or therein upon such terms and conditions as such purchaser and owner may deem best, subject, however, to the provisions of this act and the reservations herein contained; *and provided, further*, that the lessee or purchaser shall in every case pay to the state an undivided one-sixteenth of the mineral produced or the value thereof at the well or mine as may be determined by the surveyor general; *provided further, however*, that upon the discovery of oil or gas in paying quantities on adjoining lands the purchaser shall within

three months thereafter begin or cause to be started the drilling of a well upon his land, which drilling shall be continuous, as may be provided for by appropriate rules and regulations, prescribed by the surveyor general.

SEC. 11. The surveyor general shall reserve and may exercise the authority to cancel any prospecting permit or lease upon failure by the permittee to exercise due diligence and care in the prosecution of the prospecting work in accordance with the terms and conditions stated in the permit or lease and shall insert in every such permit or lease issued under the provisions of this act appropriate provisions for its cancellation by him.

SEC. 12. No person, association or corporation, shall take or hold, under the terms of this act, more than one oil or gas permit or lease; no corporation shall hold any interest as a stockholder of another corporation in more than one lease and no person or corporation shall take or hold any interest or interests as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease under the provisions hereof, which, together with the area embraced in any direct holding of a lease, under this act, or which, together with any other interest or interests as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease under the provisions hereof, for any kind of mineral leased hereunder exceeds in the aggregate an amount equivalent to the maximum number of acres of the respective kinds of minerals allowed to any one lessee under this act. Any interest held in violation of this act shall be forfeited to the State of California by appropriate proceedings for that purpose in the superior court for the county in which the property, or some part thereof, is located, except that any ownership or interest forbidden in this act which may be acquired by descent, will, judgment, or decree may be held for two years and not longer after its acquisition; *provided*, that nothing herein contained shall be construed to limit or to prevent any number of lessees under the provisions of this act from combining their several interests so far as may be necessary for the purpose of constructing and carrying on the business of a refinery, or of establishing and constructing as a common carrier a pipe line or lines of railroads to be operated and used by them jointly in the transportation of oil from their several wells, or from the wells of other lessees under this act, or the transportation of coal; *provided, further*, that if any of the lands or deposits leased under the provisions of this act shall be subleased, trustee, possessed or controlled by any device permanently, temporarily, directly, indirectly, tacitly, or in any manner whatsoever, so that they form part of, or are in anywise controlled by any combination in the form of an unlawful trust, with the consent of the lessee, or form the subject of any contract or conspiracy in restraint of trade in the mining or selling of coal, phosphate, oil, oil shale, gas, or sodium entered into by the lessee, or any agreement or understanding, written, verbal, or otherwise to which such lessee shall be a party of which his or its output is to be or become the subject, to control the price or prices thereof or of any holding of such lands by any individual, partnership, association, corporation, or control in excess of the amounts of lands provided in this act, the lease thereof shall be forfeited by appropriate court proceedings.

SEC. 13. Rights of way through all state lands are hereby granted for pipe-line purposes for the transportation of oil or natural gas to any applicant possessing the qualifications provided in section four of this act, to the extent of the ground occupied by

the said pipe line and twenty-five feet on each side of the same under such regulations as to survey, location, application, and use as may be prescribed by the surveyor general and upon the express condition that such pipe lines shall be constructed, operated, and maintained as common carriers; *provided*, that the surveyor general shall in express terms reserve and shall provide in every lease of oil lands hereunder that the lessee, assignee, or beneficiary, if owner or operator or owner of a controlling interest in any pipe line or of any company operating the same which may be operated accessible to the oil derived from lands under such lease, shall at reasonable rates and without discrimination accept and convey the oil of the state or of any citizen or company not the owner of any pipe line, operating a lease or purchasing gas or oil under the provisions of this act; *provided*, that no right of way shall hereafter be granted over said lands for the transportation of oil or natural gas except under and subject to the provisions, limitations, and conditions of this section. Failure to comply with the provisions of this section or the regulations prescribed by the surveyor general shall be ground for forfeiture of the grant by the appropriate proceedings prosecuted in the superior court for the county in which the property, or some part thereof, is located; *and provided, further*, that all the rights and privileges as are now, or as may hereafter be provided by law, respecting the acquisition of rights of ingress, egress, and regress over the property of another, by proceedings in eminent domain, are hereby expressly given to a permittee or lessee so that such permittee or lessee may carry on the operations contemplated under the terms of this act.

SEC. 14. Any permit, lease, occupation, or use permitted under this act shall reserve to the surveyor general the right to permit upon such terms as he may determine to be just, for joint or several use, such easements or rights of way, including easements in tunnels upon, through, or in the lands leased, occupied, or used as may be necessary or appropriate to the working of the same or of other lands containing the deposits described in this act, and the treatment and shipment of the products thereof by or under authority of the state, its lessees, or permittees, and for other public purposes; *provided*, that said surveyor general, in his discretion, in making any lease under this act, may reserve to the state the right to lease, sell, or otherwise dispose of the surface of the lands embraced within such lease under existing law or laws hereafter enacted, in so far as said surface is not necessary for use of the lessee in extracting and removing the deposits therein; *provided, further*, that if such reservation is made it shall be so determined before the offering of such lease; *and provided further*, that the said surveyor general, during the life of the lease, is authorized to issue such permits for easement therein provided to be reserved.

SEC. 15. No lease issued under the authority of this act shall be assigned or sublet, except with the consent of the surveyor general. The lessee may, in the discretion of the surveyor general, be permitted at any time to make written relinquishment of all rights under such a lease and upon acceptance thereof be thereby relieved of all future obligations under said lease, and may with the consent surrender any legal subdivision of the area included within the lease. Each lease shall contain provisions for the purpose of insuring the exercise of reasonable diligence, skill, and care in the operation of said property; a provision that such rules for the safety and welfare of the miners and for the prevention of undue waste as may be prescribed by said surveyor general shall be observed, including a restriction of the workday to not

exceeding eight hours in any one day for underground workers except in cases of emergency; provisions prohibiting the employment of any boy under the age of sixteen or the employment of any girl or woman, without regard to age, in any mine below the surface; provision securing the workmen complete freedom of purchase; provision requiring the payment of wages at least twice a month in lawful money of the United States, and providing proper rules and regulations to insure the fair and just weighing or measurement of the coal mined by each miner, and such other provisions as he may deem necessary to insure the sale of the production of such leased lands to the public at reasonable prices, for the protection of the interests of the state, for the prevention of monopoly, and for the safeguarding of the public welfare.

SEC. 16. Any permit or lease issued under the provisions of this act may be forfeited and canceled by an appropriate proceeding in the superior court for the county in which the property, or some part thereof is located, whenever the lessee or permittee fails to comply with any of the provisions of the permit or lease, or of the general regulations promulgated under this act and in force at the date of the lease or permit; and the lease may provide for resort to appropriate methods for the settlement of disputes or for remedies for breach of specified conditions thereof.

SEC. 17. Any person, or association of persons, corporate or otherwise, who enters or has entered upon any land or lands coming under the provisions of this act, and who is holding, or attempting to hold or develop, any such land, is guilty of a trespass, and the claims being exerted are hereby declared to be null and void, and any property placed upon the said land is hereby declared forfeited to the state, and the surveyor general is hereby authorized and empowered to issue a prospector's permit or lease on the said land to any qualified claimant who shall comply with the provisions of this act after it becomes effective; *provided, however*, that they surveyor general may, and he is hereby expressly authorized and empowered to grant a lease, on a royalty of twelve and one-half per centum of the production, to any qualified person, or association of persons, corporate or otherwise, who shall apply therefore within three months after the passage of this act, and who, at least six months prior to the passage of this act, was operating a producing well or wells, or who was drilling the same, or actually mining for or otherwise developing the mineral products on the said area of lands; *provided, further, however*, that in case of such a lease the area shall be limited to that which is necessary for the operation of the wells or mines, and the surveyor general shall have the right to call for competitive bids for the lease or leases upon the surrounding area of land as hereinbefore provided for.

SEC. 18. The surveyor general of the state is authorized to prescribe necessary and proper rules and regulations and to do any and all things necessary to carry out and accomplish the purposes of this act, also to fix and determine the boundary lines of any structure, or oil or gas field, for the purpose of this act.

SEC. 19. All moneys received by the surveyor general under the provisions of this act from rents, fees, bonuses and royalties accruing from the use of state school lands shall be paid into the "school fund," all other moneys received under the provisions of this act shall be deposited in the "general fund."

SEC. 20. For the purposes of administering this act, there is hereby appropriated out of any money in the state treasury, not otherwise appropriated, the sum of ten thousand dollars to be expended by the surveyor general, and the state controller is

directed to draw his warrant in favor of the person or persons entitled to the same, upon demand of the surveyor general approved by the board of control, and the state treasurer is directed to pay the same.

SEC. 21. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional.

SEC. 22. All acts and parts of acts, inconsistent herewith, are hereby repealed.

RULES, REGULATIONS AND INFORMATION CONCERNING THE SALE OF SCHOOL LANDS TOGETHER WITH INFORMATION CONCERNING THE LEASING OF LANDS OF THE STATE OF CALIFORNIA.

Should a citizen of the United States desire to purchase land unsuitable for cultivation pursuant to the provisions of chapter 207, Statutes of California, 1919 (see page 17, ante), he should so advise the Surveyor General at Sacramento, by letter, giving a description of the land. All persons who have made their desires to purchase land known to the Surveyor General will be notified by mail when a sale of the land is to be held.

School lands unsuitable for cultivation will be sold at public auction in tracts ranging from the smallest subdivision up to 640 acres, there being no limit as to the number of acres one person may buy. The Surveyor General reserves the right to reject any and all bids. At the time of bidding each bidder must present an affidavit that he is a citizen of the United States, which affidavit must contain the postoffice address of the affiants. Agents may bid for principals, upon submission of affidavit of citizenship of principal and power of attorney to bid for principal.

The public auction sales will be held at places designated by the Surveyor General.

At the time of the acceptance of the bid the purchaser must pay to the treasurer of the county in which the land is situated the full purchase price of the land, or ten per cent thereof with interest on the balance at the rate of six per cent per annum from the date of sale to the first of January following. The purchase price of all timber lands must be paid in full at the time of sale. Lands located within national forests are, for the purposes of sale, considered timber lands and shall be sold for cash at not less than the current price of scrip. Should the timber value exceed the current price of scrip the timber value shall be the minimum price that will be accepted.

At the date of sale all of the land sold to one person in one county and land district will be embraced in one or more locations as desired by the purchaser, the entry or filing fee of \$5 for each location to be paid to the Surveyor General at the sale. The purchaser must also pay the county treasurer \$3 for each certificate of purchase, which will be issued pursuant to the provisions of section 3514 of the Political Code, upon surrender to the Surveyor General of the receipt of the county treasurer, showing payment as herein provided.

Lands located within national forests are subject to use as scrip at any time, therefore, a prospective purchaser of such lands at auction should write to the Surveyor General after a sale date has been determined, and prior to the sale, in order to ascertain whether or not the land in which he is interested has been used as scrip.

Certificates of purchase and all rights acquired thereunder are subject to sale by deed or assignment, executed and acknowledged before any officer authorized by law to take acknowledgements of conveyances of real property, or before the register, but patent for the land must issue in the name of the original purchaser upon payment of the full purchase price (section 3519, Political Code), subject to rights of way granted to the United States by an act of the legislature approved May 18, 1921 (chapter 173, Statutes of California, 1921), for the uses prescribed in the act of congress approved June 17, 1902, relating to the irrigation and reclamation and reserving in the people the absolute right to fish thereupon. (Section 25, Article I, Constitution of California.)

The state also reserves one-sixteenth of all the minerals in the land. (Chapter 303, Statutes of California, 1921.)

The State of California does not issue maps or plats showing the location of the land, but having the description, the approximate location can be determined by using in conjunction with the accompanying list, county maps which can be secured from most stationary stores at a cost of about seventy-five cents. The school lands were all surveyed by the United States government but it may be that corners have since been obliterated, in which event it will be necessary, should one desire to have the corners located, to employ a surveyor for that purpose.

State school lands suitable for cultivation are subject to sale, to actual settlers only, under provisions of chapter 208, Statutes of California, 1919. Forms for application to purchase may be obtained from the Surveyor General.

State school lands are subject to lease for agricultural, grazing and recreational purposes under the provisions of chapter 493, Statutes of California, 1917. Forms for application to lease may be obtained by writing to the Surveyor General.

State lands may be prospected for minerals and leases obtained to take the minerals from the lands under the provisions of chapter 303, Statutes of California, 1921, Copy of rules and regulations governing the subject matter may be obtained from the Surveyor General.

W. S. KINGSBURY
State Surveyor General.
