19. (PROSPECTING PERMIT, MR. DAVID CROWLEY, SAN MATEO COUNTY - P.R.C. 561.) On August 29, 1951 (Minute Pages 1428-29, Item 28), the Commission authorized the Executive Officer to approve an extension of time for a period of one year from May 20, 1951, for commencement of operations as required by Section 4 of Prospecting Permit P.R.C. 561, issued November 20, 1950. This extension was granted because of the requirement of time involved in preparation of marine equipment for the proposed pumping of oyster shells. Application by the permittee to the U. S. District Engineer in San Francisco on February 26, 1952, for permission to operate the marine equipment in the dredging for oyster shells in Corkscrew and Deepwater Sloughs, resulted in a statement by the U. S. Engineer office on March 21, 1952, that a permit would be withheld pending the establishment of provisions for disposition of waste dredged material in such manner that navigation would not be affected adversely. Therefore, the permittee has requested an additional extension of time for commencement of operations under the prospecting permit for the stated reason that he is now negotiating for suitable onshore locations on which to deposit the recovered and waste materials in a manner which will eliminate the basis of objection by the U. S. Engineer office.

UPON MOTION DULY MADE AND UNANIMOUSLY CARRIED, A RESOLUTION WAS ADOPTED AUTHORIZING THE EXECUTIVE OFFICER TO GRANT AN ADDITIONAL EXTENSION OF TIME FROM MAY 20, 1952, TO AUGUST 20, 1952, FOR COMMENCEMENT OF THE OPERATIONS REQUIRED BY SECTION 4 OF PROSPECTING PERMIT P.R.C. 561.
