FINDING OF NONCOMPLIANCE WITH  
STATUTORY SUBSTANTIAL IMPROVEMENT CLAUSE  
AND  
PUBLIC AGENCY PERMIT

## TRUSTEE:

City of San Leandro  
835 East 14th Street  
San Leandro, California 94577

## LOCATION:

Submerged State lands granted by Chapter 685, Statutes of 1959, as said lands are shown on the "Map of the Grant to City of San Leandro" prepared and approved by the Executive Officer of the State Lands Commission on March 1, 1960 and recorded March 16, 1960, in Map Book 40 at Page 87A by Chief Deputy Recorder of Alameda County.

## PURPOSE:

To make a finding that the City of San Leandro has not "substantially improved" the lands granted and therefore has not met the condition set by Section 1(g) of the statute.

Section 1 (g) states as follows:

...within 10 years from the effective date of this act said lands shall be substantially improved by said city without expense to the State, and if the State Lands Commission determines that the city has failed to improve said lands as herein required, all right, title, and interest of said city in and to all lands granted by this act shall cease and said lands shall revert and rest in the State.

## IMPROVEMENT DEFINED:

Under Section 1 of the Statute also states the trust uses, purposes and conditions:

(a) That said lands shall be used by said city and its successors for purposes in which there is a general statewide interest, as follows:  
(1) For the establishment, improvement and conduct of a harbor, and for the construction, maintenance and operation thereon of wharves, docks, piers, slips, quays, and other utilities, facilities, buildings, works, structures and appliances necessary or convenient for the promotion and accommodation of commerce and navigation.

(2) For the establishment, improvement and conduct of an airport or aviation facilities, including but not limited to approach, takeoff and clear zones in connection with airport runways, and for the construction, maintenance, and operation thereon of terminal buildings, runways, roadways, aprons, taxiways, parking areas, and other utilities, facilities, buildings, structures, works and appliances necessary or convenient for the promotion and accommodation of air commerce and air navigation.

(3) For public recreation purposes, and for the establishment, improvement and conduct of utilities, facilities, structures, buildings, works and appliances necessary or convenient for the promotion and accommodation of public recreation.

IMPROVEMENT ACCOMPLISHED:

None of the above improvements, called for under the statute, were accomplished on the granted lands.

REPORT OF INVESTIGATION:

In response to a request from State Lands Division, the City of San Leandro submitted a letter April 20, 1972, declaring that no development had been undertaken on the grant itself. Consisting of two strips of totally submerged water, they formed a part of the Shoreline Recreation Area, an area of approximately two and one-half square miles, all of which had been acquired by the City subsequent to the State grant. At no point did the granted strips connect with unsubmerged lands. The non-granted lands had been developed for a harbor and marina, small boat lagoon, and golf course. As described in a report on file, State Lands Division staff studied whether the development on the upland could be considered in conjunction with the granted lands as satisfying the requirements of the statute for development. Their conclusion, in March, 1974, indicated such development could be considered.

Division staff and City officials discussed the matter amicably for a period of several months. City officials pointed out that to report on the shoreline development would be a lengthy process, involving many hours of staff time. According to Division legal staff, the City also had the alternative of applying for a public agency permit for park purposes where the land would remain open space in support of recreational activities. Rather

than submitting reports on the uplands construction and continuing to be subject to tidelands trust accounting for an area that was not even contiguous with the grant, officials decided that the City would not object to a finding that conditions of the 1959 grant were not met. Instead the City would apply for a public agency permit for Open Space and Park Purposes in the area relinquished. Accordingly, the Division recommends the following agreement:
