MINUTES OF THE STATE LANDS COMMISSION
MEETING OF
JUNE 30, 1977

The regular meeting of the State Lands Commission was called to order by Chairman Kenneth Cory, State Controller, at 10:14 a.m. in Room 2170, State Capital, Sacramento, California. Other members present included Commissioner Mervyn M. Dymally, Lieutenant Governor; and Sid McCausland, Deputy Director of Finance, representing Commissioner Roy M. Bell, Director of Finance.

The minutes of the meeting of May 26, 1977 were approved as written.

Mr. William F. Northrop's Executive Officer's report is attached as Exhibit "A".

Attachment: Exhibit "A"
The Federal Energy Administration in October 1976 increased the ceiling prices for California lower tier crude oil reflecting the gravity differential adjustment, but the crude oil purchasers did not increase their posted prices.

In the Long Beach tidelands, we contended that FEA ceiling prices should be paid under the crude oil valuation terms of the net profits contracts. Monies were paid by the contractor under protest until a judgment in Federal District Court required a refund. As of today, the last of about a $4,000,000 refund has been made by adjustments in the net profits account payments. Interest payments required by the judgment will be adjusted between the City of Long Beach and the State. The District Court ruling is being appealed.

It is anticipated that monthly crude oil ceiling price increases will resume after a 14-month freeze on lower tier crude oil. These increases, which are supposed to offset inflation and maintain crude prices at the February 1976 level, should start in July or August. Whether such increases in the ceiling price will actually be paid by purchasers is not known at this time. We are still hopeful that an entitlement adjustment, being considered by the FEA, for California lower
TIER CRUDE WOULD GIVE US SOME PRICE RELIEF. THIS IS NECESSARY
BECAUSE THE INFLATION INDEX USED TO INCREASE CRUDE PRICES IS
NOT TRULY REFLECTIVE OF THE ACTUAL INCREASES IN OPERATING
COSTS DUE TO INFLATION.
