REVISION OF SALVAGE PERMIT

BACKGROUND:

On August 29, 1974 the Commission authorized a 3-year Salvage Permit to Gibson-Pierson Ship Salvors, Inc. from August 29, 1974, with an annual consideration of \$1,265, and an addition 25% of the net salvage value of \$25,000 or less, and 50% of the net salvage value in excess of \$25,000. Additionally there was provision for Public liability insurance in the amounts of \$100,000/\$300,000 for personal injury and \$50,000 for property damage. This authorization allowed mapping, exploring for, excavating, recovery and salvage of personal property including historical archaeological material from the permit site. Subsequent to the Commission's authorization the Commission staff and Attorney General's office attempted to work out the specifics of the permit, which would conform with the Commission's authorization. However, an agreement could not be reached with the applicant on an acceptable format, and no permit was consummated.

CURRENT SITUATION:

Due to the fact that the applicant has not agreed to the terms of the Commission's proposed permit, and no permit has been issued by the Commission the staff recommends that the Commission's prior authorization be rescinded.
