APPROVAL OF AWARD OF A
GEOHERMAL RESOURCES LEASE
OF RESERVED MINERAL INTERESTS
SONOMA COUNTY

The Commission, at its meeting on September 26, 1979, authorized the staff to offer for lease by competitive public bid for the extraction of geothermal resources, a parcel of land in which the State has a reserved mineral interest. The parcel, identified as Parcel W 40180, located in Sonoma County near The Geysers Steam Field and containing 200 acres, was subsequently offered for lease on the basis of a net profits bid factor. In addition to the net profits payment, the lease provided for the payment of a 12.5% royalty o. gross revenue received from the sale of steam and an annual rental of \$1 per acre.

At the September 26, 1979 meeting the Commission also certified the EIR prepared for the proposed transaction by the Sonoma County Board of Zoning Adjustments pursuant to the California Environmental Quality Act and implementing regulations.

On May 16, 1980, the staff received four (4) bids in response to a Notice of Intention published March 17 and 24, 1980 in the Sonoma County Herald-Recorder. Three lower bids have been withdrawn, leaving the following high bid:

Geothermal Power Corporation 70.6%

After review of data submitted by the bidder, it is the staff's opinion that the bidder has met the qualifications of the Commission's lease proposal.

Section 6912(b) of the P.R.C. provides that the surface landowner may, within 10 days after notification by the Commission, submit a bid identical to the highest acceptable bid, in which case the Commission shall issue a lease to the surface landowner. If the surface landowner does not file such a bid, then the Commission may proceed with the award of the bid to other than such surface landowner.

3. AUTHORIZE NOTIFICATION OF THE SURFACE LANDOWNER OF SUCH BID IN ACCORDANCE WITH SECTION 6912 OF THE P.R.C.
4. AUTHORIZE EXECUTION OF A LEASE WITH THE SURFACE LANDOWNER IN THE EVENT THE SURFACE LANDOWNER MATCHES THE HIGHEST QUALIFIED BID WITHIN THE TIME PRESCRIBED BY P.R.C.
