authorizes Limited Use, or are situated on other lands identified as possessing environmental values as stated in December 1, 1975 State Lands Commission meeting. Staff review indicates that there will be no significant effect on identified environmental values.

3. Lake Tahoe Application: The Commission at its meeting on November 27, 1978 suspended all leasing for new construction at Lake Tahoe, except for mooring buoys in designated areas. This action was taken pending completion of an EIR which addresses the cumulative impact of continued construction of piers in Lake Tahoe. Each of the applications herein are for the continued use of existing piers and buoys in the lake, and therefore are not subject to the Commission's suspension of leasing activities for new construction.
4. Permits covering structures in Lake Tahoe will include a condition subsequent that if any structure authorized is found to be in nonconformance with the Tahoe Regional Planning Agency's Shorezone ordinance, and if any alterations, repairs, or removal required pursuant to said ordinance are not accomplished within the designated time period, then the permit will be automatically terminated effective upon notice by the State, and the site shall be cleared pursuant to the terms thereof.
5. Recreational piers in Huntington Harbour have been found to pose no significant adverse environmental effects (cumulative EIR by City). The area has been found capable of accommodating the development. A cumulative EIR for Huntington Harbour was approved by the State Lands Commission at its March 25, 1976 meeting. The impact of the specific projects were included in this cumulative report.

CALENDAR ITEM NO. C 2 2 (CONTD)

The existing piers in Huntington Harbour are consistent with the requirements of Article 6.5, 2 Cal. Adm. Code, because the location and impact of these piers were considered in the above-referenced EIR in a manner which is encouraged in the Coastal Act.
