COMPROMISE TITLE SETTLEMENT AND EXCHANGE
AGREEMENT INVOLVING LANDS LOCATED IN THE
CITY OF BENICIA, COUNTY OF SOLANO

INTRODUCTION: The State Lands Commission staff recommends Commission approval of a Compromise Title Settlement and Exchange Agreement with Lincoln Benicia V. Associates involving an approximate 186-acre parcel of land located in the City of Benicia, County of Solano (Settlement Parcel). The proposed agreement contemplates the State patenting its interest in that portion of the property which is primarily dry, (Patent Parcel) in return for a Grant Deed to that portion of the property which is marshland (State Parcel). Control and possession of the State Parcel will then be transferred to the Department of Fish and Game for management as a wildlife habitat.

BACKGROUND AND PRESENT SITUATION: The record owner of the parcel, Lincoln Benicia V. Associates, is a limited partnership, comprised of Lincoln Benicia Inc., the general partner, and Aetna Life Insurance Company as the limited partner. The 186-acre parcel is located in the northern most section of the Benicia Industrial Park in close proximity to Suisun Bay. The parcel is presently undeveloped. However, the planned development on the Patent Parcel will include warehouses, light manufacturing, and office facilities.

The parcel contains 143 acres of dry land and 43 acres of wetlands. The development plan calls for the filling of 5.4 acres of wetlands. To offset this, the Department of Fish and Game has obtained a commitment from the developer to create 6 acres of restored wetland habitat. The proposed Title Settlement calls for the Developer to convey, by Grant Deed to the State Lands Commission, the 6-acre mitigation parcel

plus the remaining 37 acres of wetlands in return for a State Patent to whatever State interest remains in the parcel to be developed.

The primary source of the State's title claim is the existance of the historic course of Goodyear Slough which covered approximately 2.8 acres of the parcel that is to be developed. This portion of Goodyear Slough is now filled. The State contends that Goodyear Slough was, at the time of California's admission into the Union, a Tidal and Navigable waterway.

SUMMARY OF THE MAIN PROVISIONS OF THE AGREEMENT:

1. The State will Patent to Lincoln Benicia V. Associates its interest in the 143-acre Patent Parcel.
2. Lincoln Benicia V. Associates will convey to the State Lands Commission by Grant Deed, the 43-acre State Parcel.
3. The State will receive title insurance covering the State Parcel in the sum of \$42,000, the cost of which will be born by Lincoln Benicia V. Associates.
4. An escrow will be established for all conveyances called for in The Title Settlement Agreement. Escrow costs will be at the sole expense of Lincoln Benicia V. Associates.

The specific terms and conditions of the settlement are set forth in the proposed form of agreement, a copy of which is on file with the State Lands Commission.

CONCLUSION:

The staff has reviewed and evaluated the title evidence and the various legal principals applicable to this case. It has concluded that the proposed agreement, which in essence exchanges the States interest in 2.8 acres of the Patent Parcel for a grant deed to the 43 acre State Parcel, is a reasonable and compromise solution to this title dispute, as well as meets environmental mitigation requirements.

CALENDAR ITEM NO. 19 (CONTD)

It is in compliance with all legal requirements and is within the statutory authority of the State Lands Commission. The proposed settlement also has the enthusiastic support of the Department of Fish and Game, which, upon conveyance of the 43 acres to the State Lands Commission will receive possession and control of the property to manage as a marsh wildlife habitat.

It is anticipated that a quiet title action will be filed for the purpose of judicially confirming the transaction reflected by the Agreement.
