AUTHORIZATION TO SETTLE CASE OF  
AMERICAN SAVINGS V. STATE OF CALIFORNIA;  
MARIN COUNTY SUPERIOR COURT NO. 88601

BACKGROUND:

Novato Creek, at the location in question, was historically natural, navigable and tidal, and is sovereign land of the State administered by the State Lands Commission. American Savings and Loan Association sued the State on June 2, 1980 to quiet title to certain lands and for declaratory relief, arguing that Novato Creek at the subject location was neither navigable nor tidal, that the historic location could not be ascertained, that the old creek bed was filled through State action and is no longer of any sovereign use, and that the State is estopped from claiming any interest in the former bed.

Novato Creek now flows through a channelized flood control channel originally constructed by the old Department of Highways during the early 1930's.

Negotiations have proceeded during the pendency of the lawsuit and a settlement proposal has been made which staff and the Attorney General believe would be in the best interest of the State.

PRESENT SITUATION:

The major points of the proposed settlement are:

1. American Savings and Loan Association will grant by deed to the State an interest in fee in an approved exchange parcel. The value of the interest granted will be \$30,000.
2. American Savings and Loan Association will confirm by deed the Public Trust Easement over the existing channel and levees of Novato Creek, as shown in Exhibit B, and described in Exhibit C.

3. American Savings will grant to the Marin County Flood Control District an easement for flood control purposes over the existing channel and levees of Novato Creek, as shown on Exhibit B, and described in Exhibit C.
4. The State would relinquish, by patent, its sovereign interest within the lands described in Exhibit D, and in the process, would free those lands from the public trust.
5. The State would receive, without cost to it, title insurance for the interests it is to receive.

There are no convenient off-site exchange parcels in the precise dollar amount required available to American Savings at the present time; however, it is anticipated that such a parcel will become available in the near future through a Land Bank Agreement.

Staff has made an appraisal and evaluation of the State's interest in the property described in Exhibit D. Its recommendation is that the value be found to be \$30,000. American Savings will deposit that amount in an interest bearing escrow account.

The proposed settlement applies to pending litigation only, and American Savings remains subject to all other lawful requirements of public agencies for permits, mitigation, use, etc., independent of this agreement.

Staff recommends approval of the settlement as to dollar amount and concept, with recordation of documents to occur after a suitable exchange parcel has been found. American Savings has development plans pending before the City of Novato which require that the basic title dispute be settled.

When an approved Land Bank property is available, staff will present to the Commission the proposed exchange parcel so the Commission can determine that the land received is of equal or greater value than the interest exchanged that the exchange is in the State's interest, and that escrow for the exchange may be closed.
