OTHER PERTINENT INFORMATION:

1. Applicant desires to reconstruct an existing pier and include three existing buoys. Applicant is currently under lease for the pier, which lease will expire on October 30, 1983. Because the current lease will terminate in the near future, State Lands Commission staff recommends issuance of a General Permit - Recreational Use to replace the current Non-Commercial Lease in order to provide for the reconstruction of the pier and bring the three existing buoys under permit. The buoys have been in existence since prior to 1968, and are approved by Tahoe Regional Planning Agency.

Staff recommends that back rent, penalty and interest, if any, on the three buoys, be waived, in that knowledge of existence or ownership of said buoys was recently discovered. This application is for the continued use of an existing pier, involving reconstruction, and buoys in the lake, and therefore, is

not subject to the Commission's suspension of leasing activities for new construction.

2. This project is exempt from CEQA because it is a reconstruction of an existing pier with no modifications and three existing buoys that are not in a prime fish habitat area, under the provisions of 2 Cal. Adm. Code 2905.
3. The project is situated on lands identified as possessing significant environmental values pursuant to P.R.C. 6370.1 and is classified in a use category "Class B" which authorizes Limited Use. The project as proposed will not have a significant effect upon the identified environmental values.

APPROVALS OBTAINED:

2. TERMINATE THE EXISTING PERMIT AS APPROVED IN MINUTE ITEM NO.10, DATED JUNE 27, 1974.
