OTHER PERTINENT INFORMATION:

1. The salvage operations are being performed in conjunction with archaeological investigations on public lands owned and controlled by the United States Navy (Ballast Point, Navy Submarine Support Facility) to search for the 18th Century Spanish Fort called "Guijarros". It is the intent of this research design to orient the field and laboratory strategies to result in meaningful contribution to American Archaeology.
2. A Letter of Permission to conduct archaeological research and salvage operations was granted to the applicant in advance of a routine permit on April 27, 1982.
3. All abandoned property over and upon ungranted tide and submerged lands of the State shall be the property of the State and under the jurisdiction of the State Lands Commission and the State Lands Commission, at its option, retains the right to retrieve, collect and dispose of any or all salvaged items.
4. Permittee agrees that all artifacts recovered will be restored and shown on public display at museums or establishments in operation for the public use and benefit, as part of the Fort Guijarros Museum collection.
5. The permittee will warehouse and safeguard all salvaged material recovered from ungranted tide and submerged lands at no cost to the State.
6. The annual rental value of the site is estimated to be \$43,600.

7. This project is exempt from CEQA because it is primarily concerned with marine archaeological research which entails minor alterations of the ocean bed. The aforementioned activities will not result in a serious or major disturbance to an environmental resource.

Authority: 14 Cal. Adm. Code, Div. 6, Section 15104.

8. The project is situated on lands identified as possessing significant environmental values pursuant to P.R.C. 6370.1, and is classified in use category "C" which authorizes Multiple Use. The project as proposed will not have a significant effect upon the identified environmental values.
9. Staff has coordinated this project with those agencies and organizations who nominated the site as containing significant environmental values. They have found this project to be compatible with their nomination.
10. Staff has coordinated this project with the State Office of Historic Preservation and they have no concerns.
