CONSIDERATION OF AN APPLICATION FOR USE OF SOVEREIGN LANDS

APPLICANT:

Bank of America

Attn: Russell W. Cremer

100 Howe Avenue, Suite 250 North Sacramento, California 9582)

AREA, TYPE LAND AND LOCATION:

A 5,428±-acre parcel of sovereign land, located

in the bed of Goose Lake, Modoc County.

LAND USE:

Cattle grazing.

BACKGROUND:

The applicant acquired the majority of the uplands adjacent to the lake bed through foreclosure on Triple S Ranch, the previous owner. They believe the lake bed lands to be an integral part of the ranching operation and that they should be considered as a potential lessee. They filed an injunction against State Lands Commission upon approval and issuance of a grazing lease to Crane Creek Cattle Co. aka Dennis Sheridan. That lease was set aside pursuant to a court hearing decision. Bank of America currently has litigation on file in Modoc County claiming ownership of the subject lands.

AB 884:

03/05/87.

OTHER PERTINENT INFORMATION:

1. This activizy involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that grazing of cattle is consistent with its use classification.

2. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15025), the staff has prepared a Proposed Negative Declaration, State Clearinghouse No. 86091509. Such Proposed Negative Declaration was prepared and circulated for public review pursuant to the provisions of CEQA.

Based upon the Initial Study, the Proposed Negative Declaration, and the comments received in response thereto, there is no substantial evidence that the project as amended will have a significant effect on the environment. (14 Cal. Adm. Code 15074(b))

ADDENDUM TO ENVIRONMENTAL IMPRICT ASSESSMENT

E.4/V.1 In order to mitigate any adverse impact this proposed grazing lease may have on wildlife habitat, the prospective lessee will be required under terms of the lease to enter into an agreement with the Department of Fish and Game (VFG). The DFG will be authorized under this agreement to eliminate acreage from grazing use by erecting fence enclosures around selected 100-acre parcels to control foliage growth for wildlife habitat management.

Furthermore, DFG, by terms of a lease authorized by the State Lands Commission on June 26, 1985, may take whatever reasonable steps necessary to exerginal religious control and management on the jands recoved in the proposed grazing activity.
