- B. Cal. Adm. Code: Title 2, Div. 3; Title 14, Div. 6.

AB 884:

OTHER PERTINENT INFORMATION:

1. A major landslide occurred on the applicant's upland property during 1980, spilling slide material into Richardson Bay. Subsequently, shoreline erosion increased and further endangered the steep upland. In 1983, the applicant constructed a rock revetment and riprap shoreline protective structure to prevent further shoreline erosion. That work was performed without the required permits, and resulted in recent citations from the San Francisco Bay Conservation and Development Commission for illegal shoreline work.

The applicant has now applied for retroactive permits from all permitting authorities.

2. The annual rental value of the site is estimated to be \$3,000.
3. This activity involves lands which have NOT been identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. However, the Commission has declared that all tide and submerged lands are "significant" by nature of their public ownership (as opposed to "environmental significant"). Since such declaration of significance is not based upon the requirements and criteria of P.R.C. 6370, et seq., use classifications for such lands have not been designated. Therefore, the finding of the project's consistency with the use classification as required by 2 Cal. Adm. Code 2954 is not applicable.

4. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. The project is exempt under Class 4, Minor Alterations to Land, 14 Cal. Adm. Code 15304.
