CLOSING ACCOUNTS OF TIDELANDS OIL REVENUE EXPENDITURES  
FOR SUBSIDENCE VERTICAL AND HORIZONTAL MEASUREMENTS  
AND STUDIES, CITY OF LONG BEACH, LOS ANGELES COUNTY  
1988-89 FISCAL YEAR

SUBSIDENCE PROJECT:

Subsidence vertical and horizontal measurements  
and studies in the City of Long Beach Harbor  
District between July 1, 1988 and June 30, 1989.

STATUTORY AUTHORITY:

Chapter 138/'64 1st E.S., Sections 1(e) and  
4(d).

FISCAL IMPACT: Total costs amount to \$195,985.94 and are  
payable to the City from tideland oil revenues  
in accordance with Chapter 138 Section 4(d).

COMMISSION PRIOR APPROVAL:

June 30, 1988, Minute Item 33.

CONDITIONS FULFILLED:

1. That the amounts, if any, to be allowed  
ultimately as subsidence costs deductible  
under Chapter 138/'64 1st E.S.,  
Section 4(d) would be determined by the  
Commission upon an engineering review and  
final audit by Commission staff after the  
work was completed.
2. That the scope of work performed is  
essentially in conformance with details of  
such work as previously defined by the  
Commission.

AB 884:

N/A.

OTHER PERTINENT INFORMATION:

1. On June 30, 1988, the Commission granted prior approval to the City of Long Beach for \$250,000 in subsidence cost expenditures to be used in the conduct of vertical and horizontal measurements and studies in the Long Beach Harbor District during the 1988-89 fiscal year. The work consists of analysis and interpretation of data developed from twice yearly elevation and linear surveys carried out through an established network of ground control points dispersed throughout the project area. The purpose is to detect the occurrence, if any, of subsidence of the land surface. The vertical (elevation) surveys are conducted each May and November and the horizontal (linear) surveys are conducted each February and August. No significant change in the Harbor District land surface was detected during 1988-89.

Expenditures for the vertical measurements and studies were less than the prior approved amount by \$47,062.76. The cost of the horizontal measurements and studies was less than the amount approved by \$6,951.30. A staff audit confirms the incurred charges. The cost savings were due primarily to efforts by the Harbor Department survey staff to reduce expenditures by applying state of the art technology and the elimination of a number of redundant bench marks.

2. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15061), the Commission's review of this activity is exempt from the requirements of the CEQA because it is not a "project" as defined by CEQA and the State CEQA Guidelines.

Authority: P.R.C. 21065 and 14 Cal.  
Code Regs. 15378.

EXHIBIT:           A.   Subsidence Cost Determination, Results of  
                          Engineering Review and Final Audit Upon  
                          Completion of the Work.

IT IS RECOMMENDED THAT THE COMMISSION:

1.   FIND THAT THE COMMISSION'S REVIEW OF THIS ACTIVITY IS  
      EXEMPT FROM THE REQUIREMENTS OF CEQA PURSUANT TO 14 CAL.  
      CODE REGS. 15061 BECAUSE IT IS NOT A PROJECT AS DEFINED BY  
      P.R.C. 21056 AND 14 CAL. CODE REGS. 15378.
2.   DETERMINE THAT THE SUBSIDENCE COSTS DEDUCTIBLE FROM  
      TIDELAND OIL REVENUE UNDER PROVISIONS OF CHAPTER 338/'64  
      1ST E.S., SECTION 4(d) FOR PORT OF LONG BEACH SUBSIDENCE  
      VERTICAL AND HORIZONTAL MEASUREMENTS AND STUDIES DURING  
      FISCAL YEAR 1988-89 ARE AS SHOWN ON EXHIBIT "A" ATTACHED  
      AND BY REFERENCE MADE A PART HEREOF.
3.   ON THE BASIS OF THIS DETERMINATION, AUTHORIZE THE FINAL  
      CLOSING OF THESE ACCOUNTS.
