**OTHER PERTINENT INFORMATION:**

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 2, Replacement or Reconstruction of deteriorated or damaged structures, 2 Cal Code Regs 2905(b).
2. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
3. The applicants propose to reconstruct only the waterward portion of an existing recreational pier, including the reconstruction of an existing boathouse. All work will be conducted waterward of the 6,223-foot low water elevation and will be accomplished using a barge-mounted pile driver. All work will be conducted from the water and all construction wastes will be collected onto the barge and disposed of at the nearest dumpster/sanitary landfill site. TRPA staff have indicated the project location is not identified as being in fish habitat.
4. Materials will be neither stored nor placed, nor will any activity associated with the construction, be conducted above the low water line of the subject property. This procedure will prevent any disturbance to what may be considered the habitat of *Rorippa subumbellata* roll, commonly call the Tahoe Yellow Cress, a State-listed endangered plant species.
5. This property was physically inspected by staff for purposes of evaluating the impact of the proposed activity on the public trust.

6. In order to determine the other potential trust uses in the area of the proposed project, the staff contacted representatives of the following agencies: TRPA, Department of Fish and Game, County of El Dorado, and the Tahoe Conservancy. None of these agencies expressed a concern that the proposed project would have a significant effect on the trust uses in the area. The agencies did not identify any trust needs which were not being met by existing facilities in the area. Identified trust uses in this area would include swimming, boating, walking along the beach, and views of the lake.
7. All permits issued at Lake Tahoe include special language in which the permittee/lessee agrees to protect and replace or restore, if required, the habitat of Rorippa.
8. The issuance of this permit supersedes any prior authorization by the State Lands Commission at this location.
9. If any structure hereby authorized is found to be in nonconformance with the Tahoe Regional Planning Agency's Shorezone ordinance, and if any alterations, repairs, or removal required pursuant to said ordinance are not accomplished within the designated time period, then this permit is automatically terminated, effective upon notice by the State, and the site shall be cleared pursuant to the terms thereof. If the location, size, or number of any structure hereby authorized is to be altered, pursuant to order of the Tahoe Regional Planning Agency, Permittee shall request the consent of the State to make such alteration.
10. The applicant has been notified that the public has a right to pass along the shoreline and the permittee must provide a reasonable means for public passage along the shorezone area occupied by the permitted structure.

2. AUTHORIZE ISSUANCE TO THOMAS EDGAR MEAKIN, JAMES WETMORE MEAKIN, AND LILIAN H. ROBERTS, TRUSTEE, OF A FIVE-YEAR RECREATIONAL PIER PERMIT, BEGINNING NOVEMBER 5, 1991 FOR THE PARTIAL RECONSTRUCTION, USE AND MAINTENANCE OF AN EXISTING PIER, INCLUDING THE RECONSTRUCTION OF A BOATHOUSE, ON THE LAND DESCRIBED ON EXHIBIT "A" ATTACHED, AND BY REFERENCE MADE A PART HEREOF.
