CONSIDER COMPROMISE TITLE SETTLEMENT AGREEMENT BETWEEN THE CITY OF BENICIA, SOLANO COUNTY, AND THE STATE LANDS COMMISSION

PARTIES: City of Benicia

State Lands Commission

BACKGROUND:
The Legislature, by Chapter 187, Statutes of 1855, as amended, granted certain tide and submerged lands, and lands subject to overflow, to the City of Benicia. Benicia mapped and subdivided the granted lands into blocks of lots and streets. Benicia then sold certain of the lots to private parties. The City of Benicia subsequently reacquired title to the private interest in certain previously sold lots, in connection with the Benicia Marina development. A dispute has arisen between the Commission and the City concerning the present legal character of title to the granted lands that lie within the Benicia Marina development. The dispute is essentially over whether, and to what extent, the land granted by the Legislature to Benicia remains subject to the public trust for commerce, navigation, fisheries, water-oriented recreation, and other recognized public trust purposes.

Commission staff, together with a representative of the Office of the Attorney General, have met with representatives of Benicia and have worked out a proposed compromise title settlement agreement which would lay to rest any question about whether, and to what extent, the public trust applies to the subject parcel. The material provisions of the proposed settlement would do all of the following:

(REVISED 03/01/95)
A. The State would quitclaim to Benicia and other parties, as their interests may appear of record at the close of escrow, those parcels designated TRUST TERMINATION PARCEL(s) "A", "B", "C", and "D", free of the public trust easement.

B. Benicia would quitclaim the TRUST PARCEL to the State, subject to an existing lease for marina and related commercial purposes.

C. The State would quitclaim to Benicia, a municipal corporation, the TRUST PARCEL, subject to the public trust for commerce, navigation, fisheries, water-oriented recreation and other recognized public trust uses. The existing lease would be subject to the public trust.

The recordation of the conveyances described above would clarify the title status of all land within the disputed area.
