**CONSIDER APPROVAL OF A NON-EXCLUSIVE GEOPHYSICAL  
SURVEY PERMIT ON TIDE AND SUBMERGED LANDS  
UNDER THE JURISDICTION OF THE  
CALIFORNIA STATE LANDS COMMISSION**

**APPLICANT:**

C&C Technologies, Inc.  
Attn.: Ms. Denise Douglas  
730 East Kaliste Saloom Road  
Lafayette, LA 70508

**BACKGROUND:**

C&C Technologies, Inc., has applied for a low energy statewide offshore Geophysical Permit. These permits are issued to qualified companies to perform geophysical surveys of the ocean bottom for the purpose of geotechnical investigation of nearshore sand erosion and deposition studies, optic cable routes, oil and gas pipeline routes, marine facility sea bottom changes, seafloor hazards and debris, and location of sunken boats and airplanes. These low energy surveys utilize equipment such as side scan sonar and magnetometer, which use no more than two kilojoules of energy. Air guns and other sources of high energy input are expressly prohibited in the permit.

**TERM OF PROPOSED PERMIT:**

May 1, 2002 through April 30, 2005.

**PREREQUISITE CONDITIONS, FEES AND EXPENSES:**

Required fees, expense deposit, and other security have been received.

**OTHER PERTINENT INFORMATION:**

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15025), the staff prepared a Proposed Negative Declaration identified as CSLC ND 358, State Clearinghouse No. 84020113. Such Negative Declaration was prepared and circulated for public review pursuant to the provisions of the CEQA. The Commission adopted the Negative Declaration on May 24, 1984, for the program under which issuance of this permit is proposed.
2. Based upon the Initial Study, the Negative Declaration, and the comments received in response thereto, there was no substantial evidence that the program would have a significant effect on the environment; Title 14, California Code of Regulations, section 15074(b).
3. On October 5, 1987, the Commission considered applications for general geophysical permits. The Commission found that new information, obtained after the May 24, 1984, Negative Declaration revealed that use of geophysical equipment, which emits strong acoustic pulses, may cause significant adverse effects upon the environment and that approval of a permit allowing use of such equipment required preparation of an environmental impact report. However, the Commission also found that no new information revealed any substantial evidence that use of passive equipment or low acoustic pulse-generating equipment, such as side-scan sonar and magnetometer, would have a significant effect on the environment. Based upon the May 24, 1984, Negative Declaration, the Commission, therefore, approved the issuance of permits which provided for the use of equipment which has no more than two kilojoules of energy input.
4. Since 1987, geophysical surveys employing passive or low-energy equipment have continued under the Commission's permits without significant incident or new evidence of potential environmental effects from the surveys.

2. FIND THAT THE COMMISSION REVIEWED AND CONSIDERED THE INFORMATION CONTAINED IN THE NEGATIVE DECLARATION AND THE COMMENTS RECEIVED IN RESPONSE THERETO.
3. FIND THAT THE INFORMATION CONTAINED IN THE CITED NEGATIVE DECLARATION REMAINS VALID FOR THE CONSIDERATION OF THE PROPOSED PERMIT.
