**REQUEST AUTHORITY FOR EXECUTIVE OFFICER  
TO SOLICIT PROPOSALS FOR CONSULTANT SERVICES, NEGOTIATE FAIR AND  
REASONABLE PRICE, AWARD AND EXECUTE NECESSARY AGREEMENTS TO  
DEVELOP ENGINEERING AND MAINTENANCE STANDARDS FOR LIQUEFIED  
NATURAL GAS MARINE TERMINALS**

**PARTY:**

California State Lands Commission  
100 Howe Avenue, Suite 100 South  
Sacramento, CA 95825-8202

**BACKGROUND:**

To date, there is no definitive set of engineering and maintenance standards for liquefied natural gas (LNG) terminals. Funding is proposed in the 2004-05 Governor's Budget to develop these new standards. The goal of these new standards will be to mitigate damage to facilities and prevent LNG spilled resulting from earthquakes, mooring/berthing incidents or other possible environmental or man-made hazards. Much of the performance-based design and analysis will be similar to that used for the Marine Oil Terminal Engineering and Maintenance Standards (MOTEMS). At the time of development of the MOTEMS project, there was no indication that LNG terminals would be considered in California, and as such were not included in that effort.

**PROPOSED ACTIVITY:**

Staff proposes to engage an engineering firm to assist staff in the development of these standards. The proposed work will require highly specialized engineering disciplines with experience in the LNG marine terminal industry which is beyond the scope of existing CSLC staff. The Executive Officer requests, subject to the availability of funding, delegation of authority to engage a consultant for this purpose.
