PROPOSED AMENDMENT:
Acknowledge that the Dredging Lease approved by the Commission on June 18, 2002 was for a ten-year period beginning June 1, 2002, and amend the lease to expand the lease premises to include the Pittsburg Marina Boat Launch Ramp and the Sea Point Storm Drain Outfall as shown on the attached Exhibit A and authorize the disposal of dredged material at the United States Army Corps of Engineers approved site at Chipps Island. All other terms and conditions of the lease shall remain in effect without amendment.
OTHER PERTINENT INFORMATION:

1. The City’s dredging of 73,000 cubic yards of material from granted lands is a portion of a larger dredging project to remove 275,000 cubic yards of material from lands at the Pittsburg Marina that are not under the jurisdiction of the Commission.

2. On June 18, 2002, the Commission authorized the issuance of a ten-year Dredging Lease, Lease No. PRC 8403.9, to the city of Pittsburg to maintenance dredge a maximum of 73,000 cubic yards of material from the lease premises.

3. In November and December of 2006, the city of Pittsburg dredged 1,787 cubic yards from State sovereign lands at the Pittsburg Boat Launch Ramp and the Sea Point Storm Drain Outfall that were not under lease. The City has applied to amend the lease premises to include these two areas in the lease.

4. Pursuant to the Commission’s delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 4, Minor Alterations to Land, Title 2, California Code of Regulations, section 2905 (d)(4).

   Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300 and Title 2, California Code of Regulations, section 2905.

5. This activity involves lands which have NOT been identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. However, the Commission has declared that all lands are “significant” by nature of their public ownership (as opposed to “environmentally significant”). Since such declaration of significance is not based upon the requirements and criteria of Public Resources Code Sections 6370, et. seq. use classifications for such lands have not been designated. Therefore, the finding of the project’s consistency with the use classification as required by Title 2, California Code of Regulations, Section 2954 is not applicable.
