OTHER PERTINENT INFORMATION:

1. Applicant owns the uplands adjoining the lease premises.
2. On June 24, 2008, the Commission authorized a General Lease – Recreational and Protective Structure Use to Riverview Properties, LLC, for the construction of a covered single-berth floating boat dock, gangway, strong arm, and utility conduit. That lease will expire on June 23, 2018. On August 15, 2008, the ownership of the upland transferred to W. Glen Boyd. The dock facilities were not constructed by the previous owner, so the Applicant is now applying for a new General Lease – Recreational and Protective Structure Use to construct the dock facilities
3. The Applicant proposes to construct a covered floating boat dock in the Sacramento River. The proposed dock will be a “pier-less” design (i.e., without pilings) and will be covered with a pitched roof and include a utility conduit containing electrical service for safety lighting and a water line for use of a hose attached to the gangway. The gangway is dual hinged with an engineered support strong arm anchored to a deadman located on the berm. In-water work must be completed between August 1 and October 31 and will consist of floating the dock into the waterway in place.
4. Applicant qualifies for the rent free use of the covered single-berth floating boat dock, gangway, strong arm, and utility conduit because the Applicant is a natural person who owns the littoral land that is improved with a single-family dwelling pursuant to Public Resources Code Section 6503.5.
5. The bank protection will mutually benefit both the public and the Applicants. The bank of the Sacramento River will have the additional protection from wave action provided at no cost to the public.
