CONSIDER APPROVAL OF THE PROPOSED RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NEWPORT BEACH PURSUANT TO PUBLIC RESOURCES CODE SECTION 7060 AND 7061, TO ENTER INTO AN OPERATING AGREEMENT FOR THE MANAGEMENT OF OIL, GAS AND OTHER HYDROCARBONS IN THE CITY OF NEWPORT BEACH, ORANGE COUNTY

APPLICANT:
City of Newport Beach
3300 Newport Boulevard
PO Box 1768
Newport Beach, CA 92658

The City of Newport Beach (City) is a trustee of sovereign tide and submerged lands granted to it by the Legislature pursuant to Chapter 74, Statutes of 1978, as amended (Statutory Grant).

BACKGROUND:
Pursuant to the provisions of sections 7060 and 7061 of the Public Resources Code, the City, acting by and through its City Council, has submitted for approval by the State Lands Commission (Commission) a proposed resolution of its intent to enter into an operating agreement with a third party operator for the management of oil, gas, and other hydrocarbons, from tide and submerged lands in the City of Newport Beach, as shown in Exhibit A.

Section 7058.5 of the Public Resources Code provides in pertinent part:

“Before a lease or any operating agreement or other type of agreement for the production of oil, gas, or other hydrocarbons is entered into...the governing body of a city shall in open meeting adopt a resolution declaring its intention to take such action. The resolution shall describe the property involved in such manner as to identify it, specify the minimum rental, royalty, or other consideration, and the term of the lease or agreement, the form of the lease or agreement, and one variable, biddable factor, on which bids will be received, and fix a time not less than 30 days thereafter and place for a public meeting of said governing body, at
which meeting sealed proposals to lease or contract will be received and considered.”

Section 7060, subdivision (a) of the Public Resources Code provides in pertinent part:

“No such lease or agreement shall be effective unless prior to adopting the resolution provided for by Section 7058.5 the city shall have petitioned the State Lands Commission for approval of the proposed resolution, and the proposed resolution shall have been approved by the State Lands Commission.”

STAFF ANALYSIS:
The City’s proposed resolution includes the substantive contents required under section 7058.5 of the Public Resources Code.

- The proposed resolution provides maps and legal descriptions that describe and identify the property.
- The minimum consideration for the operating agreement shall not be less than the net revenue derived from oil operations in Fiscal Year 2012, minus any future costs for improvements, operations or maintenance. This revenue may also be adjusted based upon the dwindling availability of, and fluctuating price of, oil, gas, and other hydrocarbon resources.
- The form of the agreement will be an operating agreement. The City is seeking an operating agreement with a third party to conduct oil field drilling, development and production operations for the City. Through the operating agreement, the City will seek to guarantee its current level of return on production, adjusted for future investment, operating and maintenance costs, and future oil and gas price changes. The third party will also share with the City the return on production generated by the third party’s additional investment to maximize production.
- The maximum lease term is 35 years or as otherwise allowed by law.
- The one biddable factor the City Council will utilize is the ability of the third-party to maximize oil production. Other variables, including, but not limited to, a combination of financial viability of the third-party, prior urban drilling experience and ability to maximize revenue will be used to determine if the bidder is responsible.
- The date, time, and location for the public opening of the bids will be determined if this proposed resolution is approved. The time for the public meeting to consider the proposals will be not less than 30 days after the adoption of the resolution, but has not been set at this time. Staff believes a reasonable approach is for the Executive Officer of the Commission to approve the time and place of the public meeting in the future and before the City adopts the resolution.
OTHER PERTINENT INFORMATION:
The staff recommends that the Commission find that the subject approval of the proposed resolution does not have a potential for resulting in either a direct or a reasonably foreseeable indirect physical change in the environment, and is, therefore, not a project in accordance with the California Environmental Quality Act (CEQA).

Authority: Public Resources Code section 21065 and California Code of Regulations, Title 14, sections 15060, subdivision (c)(3), and 15378

EXHIBITS:
A. Location and Site Map
B. Proposed City Council Resolution

RECOMMENDED ACTION:
It is recommended that the Commission:

CEQA FINDING:
Find that the subject approval of the proposed resolution is not subject to the requirements of CEQA pursuant to California Code of Regulations, Title 14, section 15060, subdivision (c)(3), because the subject activity is not a project as defined by Public Resources Code section 21065 and California Code of Regulations, Title 14, section 15378.

AUTHORIZATION:
Approve the proposed resolution of the City Council of the City of Newport Beach, substantially in the form of the attached Exhibit “B,” and by reference made a part hereof, declaring its intent to enter into an operating agreement with a third party operator for the management of oil, gas, and other hydrocarbons from certain legislatively granted tide and submerged lands lying in the City of Newport Beach, Orange County, pursuant to sections 7060 and 7061 of the Public Resources Code.

Delegate to the Executive Officer of the Commission the approval of the time and place for the public meeting to consider the proposals prior to the adoption of the resolution.
This Exhibit is solely for purposes of generally defining the lease premises, is based on unverified information provided by the Lessee or other parties and is not intended to be, nor shall it be construed as, a waiver or limitation of any State interest in the subject or any other property.
A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NEWPORT BEACH DECLARING ITS INTENTION TO ENTER INTO AN OPERATING AGREEMENT FOR THE MANAGEMENT OF THE CITY'S OIL, GAS AND OTHER HYDROCARBON RESOURCES

WHEREAS, the City of Newport Beach ("City") manages the tidelands within its boundaries on behalf of the State of California pursuant to the provisions of the Beacon Bay Bill (Chapter 74 of the Statutes of 1978, as amended);

WHEREAS, as part of its tidelands management responsibilities and consistent with Charter Section 1401, the City manages oil, gas and other hydrocarbon resources ("Oil Operations");

WHEREAS, the income earned from the City's Oil Operations is deposited into the City's tidelands funds as required by the Beacon Bay Bill to finance the improvement, maintenance and operation of the tidelands;

WHEREAS, the City desires to seek proposals and enter into an operating agreement with a third-party experienced in the management of Oil Operations to further increase efficiency and income derived from the City's Oil Operations;

WHEREAS, prior to entering into an operating agreement with a third-party for the management of the City's Oil Operations, the City is required by California Public Resources Code Section 7058.5 to adopt this resolution declaring its intent to enter into said operating agreement; and

WHEREAS, pursuant to California Public Resources Code Section 7060, the State Lands Commission has reviewed and approved this resolution.

NOW, THEREFORE, the City Council of the City of Newport Beach resolves as follows:

Section 1: The City Council declares its intent to enter into an operating agreement to manage the City's Oil Operations. Pursuant to California Public Resources Code Section 7058.5 the City provides the following information:

(1) Consistent with Charter Section 1401, exploration, drilling, production or processing of oil, gas or other hydrocarbon substances by vertical, slant or other drilling method will originate from the land surface within the approximately twenty (20) acres of territory depicted and
specifically described in Exhibits "A" and "B", which are attached hereto and incorporated by this reference.

(2) The minimum consideration for an operating agreement shall not be less than the net revenue derived from Oil Operations in Fiscal Year 2012, minus any future costs for improvements, operations or maintenance. This revenue may also be adjusted based upon the dwindling availability of, and fluctuating price of, oil, gas and other hydrocarbon resources.

(3) The term of the operating agreement shall not exceed thirty-five (35) years, or as otherwise allowed by law.

(4) The City is seeking an operating agreement with a third-party to conduct oil field drilling, development and production operations for the City. Through the operating agreement, the City will seek to guarantee its current level of return on production, adjusted for future investment, operating and maintenance costs, and future oil and gas price changes. The third-party will also share with the City the return on production generated by the third-party’s additional investment to maximize production.

(5) The one (1) biddable factor the City Council will utilize is the ability of a third-party to maximize Oil Production. Other variables and factors, including, but not limited to, a combination of financial viability of the third-party, ability to maximize revenue, and prior urban drilling experience will be used to determine if the third-party is qualified.

(6) The date, time and location for the public opening of the proposals will be determined if this resolution is approved. The proposal opening will not occur earlier than thirty (30) calendar days after this resolution is approved. The City Council may reject any and all proposals.

Section 2: Pursuant to California Public Resources Code Section 7058.5, this resolution shall be published once a week for four (4) successive weeks in one (1) or more newspapers.

Section 3: The recitals provided in this resolution are true and correct and are hereby incorporated into the substantive portion of this resolution.
Section 4: This resolution shall take effect immediately upon its adoption by the City Council, and the City Clerk shall certify the vote adopting this resolution.

ADOPTED this ____ day of ________, 2013.
