Public Trust and State's Best Interests Analysis:

On August 24, 2006, the Commission authorized a General Lease – Recreational and Protective Structure Use to Darrell Ferreira and Mary Lynn Ferreira, as Co-Trustees and all Successor Trustees of the Darrell and Mary Lynn Ferreira Revocable Trust dated May 11, 2006 ([Calendar Item C31, August 24, 2006](#)). That lease expires October 31, 2016. The Applicant is now applying for a new lease.

The subject lease contains a dock and appurtenant facilities used for the mooring of boats. Recreational boating is water-dependent and is generally consistent with the common law Public Trust Doctrine. The California Legislature has identified private recreational boating facilities as an authorized use of Public Trust lands (Pub. Resources Code, § 6503.5). The Applicant owns the upland adjoining the lease premises. The subject structures are privately owned and maintained.

The proposed lease includes certain provisions protecting the public use of the proposed lease area, including a limited lease term of 10 years, and a non-exclusive use provision.

The dock and appurtenant facilities have existed for many years at this location; the facilities do not significantly alter the land; the lease does not alienate the State's fee simple interest, and neither permanently impairs public rights. Upon termination of the lease, the lessee may be required to remove any improvements and restore the lease premises to their original condition. Based on the foregoing, Commission staff believes that the dock and appurtenant facilities will not substantially interfere with Public Trust needs, at this location at this time, and for the foreseeable term of the proposed lease.

The proposed lease requires the lessee to insure the lease premises and indemnify the State for any liability incurred as a result of the lessee's activities thereon. The lease also requires the payment of annual rent to compensate the people of the State for the occupation of the public land involved. Bank protection will maintain and improve the integrity of the river channel, which will help protect the Public Trust resources of the river for recreational and navigational purposes by the public. For all the reasons above, Commission staff believes the issuance of this lease is consistent with the common law Public Trust Doctrine and in the best interests of the State.

OTHER PERTINENT INFORMATION:

1. This action is consistent with Strategy 1.1 of the Commission's Strategic Plan to deliver the highest levels of public health and safety in the protection, preservation, and responsible economic use of the lands and resources under the Commission's jurisdiction.

The project is exempt under Class 1, Existing Facilities; California Code of Regulations, title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084 and California Code of Regulations, title 14, section 15300 and California Code of Regulations, title 2, section 2905.

3. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370 et seq., but such activity will not affect those significant lands. Based upon staff's consultation with the persons nominating such lands and through the CEQA review process, it is staff's opinion that the project, as proposed, is consistent with its use classification.
