PROCEEDINGS

CHAIRMAN MCCARTHY: This meeting of the State Lands Commission will commence.

Do we have approval of the minutes of the last Commission meeting? Is there any question about them? If there is not, they are approved.

May we hear the Executive Officer's Report.

EXECUTIVE OFFICER DEDRICK: Yes, Mr. Chairman. I'm reporting to you on the progress on Chevron's Island Esther, which was destroyed in the storms of last year.

The Commission has asked in the past for Chevron to report quarterly on their progress.

They have advised us and informed the press that they have decided to proceed with the construction of a conventional two-deck platform at that site at an estimated cost of $46 million. The production and development plan will be submitted in early February to the staff of the Commission.

So, I don't believe we need an order to report back further, since we'll be working on it actively then.

The lease was issued in 1964 for a primary term of 20 years and so long thereafter as oil and gas could be produced. As you recall, last April the Commission acknowledged the existence of a force majeure...
and the fact that the ocean had washed away the island. That allows us to continue with the lease and get it back into production.

That's all I have to report.

I should tell you that in terms of the calendar, sir, Item C9 is off, 11, 12, and 13.

CHAIRMAN McCARTHY: All right. Did everyone in the audience hear that?

Consent Item 9 is off and then Items 11, 12, and 13 are also off.

Have you concluded your report?

EXECUTIVE OFFICER DEDRICK: Yes, I have, sir.

CHAIRMAN McCARTHY: Thank you.

Now, we're addressing Consent Items 1 through 8 and Item 10 on the Consent Calendar.

Does anyone have any comment about any of those?

If not, the Commission will unanimously approve them as consent items.

As you heard, Items 11, 12, and 13 have been removed. We're now on Item 14.

EXECUTIVE OFFICER DEDRICK: Yes, this is an approval of an assignment of a lease for a maintenance of a wastewater outfall pipeline at Pebble Beach in Monterey County.

The general partnership, which was Twentieth
Century-Fox, Urban Diversified Properties, and Urban Investment and Development are adding a general partner, which is -- gosh -- are assigning it to the Pebble Beach Company and general partnership, whose partners are Twenty-First Century-Fox Film Corporation, and MKDG II as a general partnership.

CHAIRMAN McCARTHY: Is there any question from the Commissioners?

COMMISSIONER ORDWAY: No.

COMMISSIONER RASMUSSEN: No.

CHAIRMAN McCARTHY: Anyone in the audience who wishes to raise any point about this?

If not, the recommendation is approved.

No. 15.

EXECUTIVE OFFICER DEDRICK: Item 15 is to authorize the Department of Forestry to conduct a controlled burn -- they call it prescribed burns now -- in a section of school land in Lake County.

CHAIRMAN McCARTHY: Any questions from the Commissioners?

COMMISSIONER RASMUSSEN: No.

CHAIRMAN McCARTHY: From the audience?

All right, it's approved as requested.

No. 16.

EXECUTIVE OFFICER DEDRICK: No. 16 is approval
of a one-year dredging permit for the Oxnard Harbor District to dredge approximately 100,000 cubic yards of material from the State-owned portion of the tidelands which serve as a channel into the harbor.

CHAIRMAN McCARTHY: Any questions from Commissioners?

COMMISSIONER RASMUSSEN: No questions.

CHAIRMAN McCARTHY: From the audience? All right, that's approved as requested.

No. 17.

EXECUTIVE OFFICER DEDRICK: No. 17 is an extension of an existing dredging permit for the Air Force at Point Arguello. Weather conditions and labor conditions made it impossible to meet their deadline.

CHAIRMAN McCARTHY: Is there any questions from Commissioners?

COMMISSIONER ORDWAY: No.

COMMISSIONER RASMUSSEN: No.

CHAIRMAN McCARTHY: From the audience? No. 17 is approved as requested.

No. 18.

EXECUTIVE OFFICER DEDRICK: No. 18 is approval of the Geothermal Prospecting Permit for Bear Creek Mining Company on about 2,700 acres of proprietary land owned by the Department of Fish and Game and called the Winter
Due to an error in page numbering, there is no page number 5.
Wildlife Management Unit.

The State Lands Commission manages the mineral resource under all State-owned land. This is proprietary land and the Department of Fish and Game, by statute, must agree to our leasing. That agreement has been reached in a very detailed document.

I don't know if we have any testimony, anyone here to speak in regard to that.

CHAIRMAN MCCARTHY: Well, there are two that have indicated they are here to answer questions and discuss the issue if it's desired. There's one person who signifies that he would like to testify.

Mr. Dick Daniel?

EXECUTIVE OFFICER DEDRICK: Excuse me. Dick Daniel represents the Department of Fish and Game.

Dick, did you want to present --

MR. DANIEL: Unless there are any questions, I see no need.

EXECUTIVE OFFICER DEDRICK: We have in the record.

Mr. Chairman, a letter of support from the Department of Fish and Game from the Director, Don Carper.

We have letters of support from the San Bernardino County Audubon Society, and from the California Waterfowl Society.

There is some local opposition. But I think, on
balance, that the Department of Fish and Game and our staff and Bear Creek have done an excellent job of putting together an agreement which will control any negative effects and will mitigate for the project in a way that is positive for the wildlife of the area.

CHAIRMAN McCARTHY: You have a letter of opposition?

EXECUTIVE OFFICER DEDRICK: That is correct, from the Southern California Chapter of the Wildlife Society.

CHAIRMAN McCARTHY: Have we made that a part of the record?

EXECUTIVE OFFICER DEDRICK: Yes. There are approximately ten or eleven other letters from individuals -- none from Imperial County -- which are also part of the record. We have received today a letter from Teri, -- wrong one. That's a different project.

Imperial County has approved the project. It has mitigated negative declaration under their program EIR, which was completed about two years ago.

CHAIRMAN McCARTHY: Are there any questions from members of the Commission?

COMMISSIONER RASMUSSEN: No questions.

CHAIRMAN McCARTHY: I would state that I think we should go forward at this time. I think the conditions that would be imposed do seem to have effectively mitigated
any environmental problems that might ensue.

I also note the letters of response that we have from some environmental groups that are supportive in nature and suggest they agree with the conditions that are being proposed.

Anyone in the audience care to say anything further about this?

Is there any dissent on the Commission?

COMMISSIONER RASMUSSEN: No.

CHAIRMAN McCARTHY: This item is approved.

No. 19.

EXECUTIVE OFFICER DEDRICK: No. 19 is approval of three Prospecting Permits for Homestake Mining Company on three portions of State land for hard rock minerals, gas, and geothermal; for valuable minerals, that is.

The three parcels are located very close to the Nevada border and not within the Mono Basin.

It is, again, a mitigated negative declaration with a good many controls on it. We have received this morning two pieces of information, one from Teri Jamin, Planning Director of the County of Mono, who says that Homestake shall obtain approval of the surface reclamation plan in accordance with their county ordinance, and, in addition to that, State law, prior to commencement of work. The other is from the Bureau of Land Management
protesting that an EIR should be prepared for this permit.

The comments of the Bureau of Land Management and the Department of Fish and Game were addressed in the mitigated neg. The Bureau of Land Management conducts similar projects on adjacent lands or lands in the area with controls that we think are significantly less protective than the ones that are on this lease.

Other than that, I know of no objections to the Prospecting Permit.

I have copies of those letters if you would like to see them. They will be part of the record.

CHAIRMAN MCCARTHY: Any questions from Commissioners?

Anyone in the audience?

That is approved as requested.

No. 20.

EXECUTIVE OFFICER DEDEICK: This is a revision of a pooling agreement between the State Lands Commission, other Shell lessees, and originally the County of Sacramento, which owns .09 acres, roughly .01 percent of the revenues from the gas field, which is in Sacramento and Yolo counties.

The County has asked to be removed from the pooling agreement and we agree. If they don't want their .01 percent, why, we'll get it.
CHAIRMAN MCCARTHY: Any questions from the Commission members?

From the audience?

Approved as requested.

No. 21.

EXECUTIVE OFFICER DEDRICK: No. 21 is a notice of intent by the City of Long Beach to spend $268,275 of its tideland oil revenues for landscape modifications at Belmont Plaza Pool.

The authority of the State Lands Commission is limited to affirming or objecting as to whether or not such expenditures meet the requirement of Chapter 138. In this instance, they do.

CHAIRMAN MCCARTHY: Any questions from Commissioners?

COMMISSIONER RASMUSSEN: No questions.

CHAIRMAN MCCARTHY: Any questions from the audience?

Approved as requested.

EXECUTIVE OFFICER DEDRICK: Mr. Hight will discuss the next item.

MR. HIGHT: Mr. Chairman, this is a request by the City of Long Beach to expend approximately $9 million for the purchase of some beach lots. The money would come from oil revenues. The staff recommends that it's
consistent with the provisions of Chapter 138.

CHAIRMAN McCarthy: You're addressing 22?

EXECUTIVE OFFICER DEDRICK: That's correct.

MR. HIGHT: Yes.

CHAIRMAN McCarthy: Any questions from Commissioners?

COMMISSIONER RASMUSSEN: No questions.

CHAIRMAN McCarthy: Any questions from the audience?

Item 22 is approved as requested.

Item 23.

EXECUTIVE OFFICER DEDRICK: No. 23 is an information item. It's a review of the 1983/84 and '84/85 Plans of Development and Operations and Budget for the Long Beach Unit. It is there for your information primarily so that we can all catch up on what's happened in this current fiscal year. The budget for the following fiscal year will be before you in April.

If you have any questions, Moose Thompson is here and would be glad to answer them.

I think you got it very late. We did not have an opportunity to get it out earlier. And I think that probably we'd like a chance to review it.

There's no time deadline. It's only an information item.
CHAIRMAN MCCARTHY: All right, any questions?

COMMISSIONER RASMUSSEN: No questions.

CHAIRMAN MCCARTHY: From the audience?

Information is received.

No. 24.

EXECUTIVE OFFICER DEDRICK: Mr. Hight will review 24 for you.

CHAIRMAN MCCARTHY: Mr. Hight.

MR. HIGHT: Item 24 is the authorization to settle a lawsuit in Orange county. As part of the settlement the State will receive a boundary line agreement, as well as there will be an area for public access, which the county will lease and maintain. We believe it's in the best interests of the state.

CHAIRMAN MCCARTHY: Any questions from any members of the Commission?

COMMISSIONER RASMUSSEN: No questions.

CHAIRMAN MCCARTHY: Any questions from the audience?

MR. STEVENS: Collins has a clarification.

EXECUTIVE OFFICER DEDRICK: To clarify one part of the calendar item.

MR. COLLINS: It says there remains a dispute over the location of a public restroom on the beach between the county and private owners. That was settled on Friday,
so the whole thing's ready to go now.

CHAIRMAN MCCARTHY: Any questions?

Approved.

25.

MR. HIGHT: 25, Mr. Chairman, is the authorization to file a lawsuit in Sacramento County.

It's hopeful that this authorization will not be necessary. The current occupant of the facilities refuses to pay rent. We hope that we can settle this without litigation, but we'd like the authorization.

CHAIRMAN MCCARTHY: Any questions from the Commissioners?

From the audience?

Approved as requested.

26.

MR. HIGHT: 26, Mr. Chairman, is an authorization for litigation to settle the boundary between the State and the City of Sacramento and private parties along the waterfront in Old Sacramento.

CHAIRMAN MCCARTHY: Is this the one earlier where one of the Sacramento Assembly members --

EXECUTIVE OFFICER DEDRICK: I don't believe that is this instance.

Mr. Chairman, the purpose of this litigation is to --
CHAIRMAN McCARTHY: I think it was Assemblyman Noonberg. This is not the issue?

EXECUTIVE OFFICER DEDRICK: No, no. In this instance, this is an agreement between the city and the State that -- we know we have to have a quiet title action so this can go forward with planning and leasing of that waterfront --

CHAIRMAN McCARTHY: That's fine.

EXECUTIVE OFFICER DEDRICK: It's a friendly lawsuit.

CHAIRMAN McCARTHY: Any questions from the audience?

It's approved as requested.
That's it.

(Thereupon this meeting of the State Lands Commission was adjourned at approximately 10:33 a.m.)

--000--
CERTIFICATE OF SHORTHAND REPORTER

I, EILEEN JENNINGS, a Certified Shorthand Reporter of the State of California, do hereby certify:

That I am a disinterested person herein; that the foregoing State Lands Commission meeting was reported in shorthand by me, EILEEN JENNINGS, a Certified Shorthand Reporter of the State of California, and thereafter transcribed into typewriting.

I further certify that I am not of counsel or attorney for any of the parties to said hearing nor in any way interested in the outcome of said hearing.

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of February, 1984.
