interest of the state, in implementing a school integrated pest management program pursuant to this article, to collect specified information on the use of pesticides at school facilities.

(b) The Department of Pesticide Regulation shall prepare a school pesticide use form to be used by licensed and certified pest control operators when they apply any pesticides at a schoolsite. The form shall include, for each application at a schoolsite, the name and address of the schoolsite, date and location of application, pesticide product name, and the quantity of pesticide used. Nothing in this section shall change any existing applicable pesticide use reporting requirements.

(c) On and after January 1, 2002, persons required to submit pesticide use records to the county agricultural commissioner or director shall complete and submit to the director the school pesticide use forms established pursuant to this section. The forms shall be submitted annually and may be submitted more often at the discretion of the pest control operator maintaining the forms.

13187. Section 13186 shall not apply to any agency signatory to a cooperative agreement with the State Department of Health Services pursuant to Section 116180 of the Health and Safety Code.

13188. The Director of Pesticide Regulation may adopt regulations to implement this article.

SEC. 4. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 719

An act relating to the Humboldt Bay Harbor District, and making an appropriation therefor.

[Approved by Governor September 25, 2000. Filed with Secretary of State September 27, 2000.]

On this date I have signed Assembly Bill No. 2016 with a reduction. This bill would appropriate funding to the Humboldt Bay Harbor district to be used for navigation improvement and safety projects. Normally I oppose such local expenditures, however, the northern region of the state is experiencing unique economic difficulties. This bill would provide one-time economic relief for one of the major regions of the state.
The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:
(a) A long-term, reliable supply of water is essential to protect and enhance California’s natural resources and economic climate.
(b) While the Department of Water Resources has projected that Californians will experience chronic water shortages in the future, the Legislature has heard credible testimony from a number of different interest groups calling into question the accuracy of those estimates.
(c) Without credible and accurate estimates of water supply needs, it is impossible to ensure that water programs, policies, and investments are appropriate to meet all residential, commercial, industrial, agricultural, and environmental needs.
(d) CALFED’s recent hearings on its draft environmental documents showed that there are widely disparate views on the role additional surface water storage should play in meeting the state’s future water needs. Some argue that the state’s water needs can all be met through water conservation, reuse, and other nonstructural methods. Others argue that to protect current and future uses of water, additional surface storage is essential.
(e) To reconcile these views, and to ensure the state makes appropriate investments in water programs, policies, and facilities, there needs to be a credible and objective assessment of the state’s future water supply needs.
