SEC. 27. Section 141 of the Tahoe-Truckee Sanitation Agency Act (Chapter 1560 of the Statutes of 1971) is amended to read:

Sec. 141. The agency may exercise the right of eminent domain to take any property, located either inside or outside its boundaries, necessary to carry out any powers of the agency; provided, however, that the agency shall not exercise such right to take any property located outside its boundaries unless it first obtains the consent thereto of the board of supervisors of the county in which such property is located. In exercising such right, the agency shall, in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal, reconstruction, or relocation of any structure, railway, mains, pipes, conduits, wires, cables, or poles of any public utility which are required to be removed to a new location.

SEC. 28. Section 2 of the Vallejo Sanitation and Flood Control District Act (Chapter 17 of the Statutes of 1952, First Extraordinary Session) is amended to read:

Sec. 2. Objects and Purposes of Act and Powers of District. The objects and purposes of this act are to provide for the collection and disposal of sewage and industrial waste and for the control and disposition of the storm and flood waters of said district, and to protect the public health and also to protect from damage from such storm and flood waters the waterways, property, public highways and public places in said district. The Legislature hereby declares

that special facts and circumstances peculiar to the area within the district having the boundaries hereinabove defined makes the accomplishment of the objects and purposes of this act impossible under existing general law and special legislation is necessary. The state and the people thereof have a primary and supreme interest in the securing to the inhabitants and property owners within the district hereinabove described adequate facilities for the collection and disposal of sewage and the protection from waters naturally flowing into the district from the surrounding mountainous watershed. Special investigation has shown that the conditions within the district hereinabove described are peculiar to that area and that this act is essential to carry out the objects and purposes herein expressed and for the elimination of duplication of governmental authority and securing greater economy of administration. It is further found and determined that the area within the district herein defined has no facilities for the sanitary treatment and disposal of sewage and is consequently contaminating and polluting the waters of San Francisco Bay. The area within the district is of strategic importance due to the proximity of Mare Island Navy Yard. The influx of Navy personnel and their families and civilian workers at the Mare Island Navy Yard has greatly aggravated the problem of sewage disposal in that area; said problem of sewage disposal is further aggravated by lack of adequate drainage and floodwater control and the infiltration of storm and flood waters into existing sanitary sewers; both the problem of sanitary sewage and drainage and the problem of storm water flood control are so correlated and interrelated that the special problems relating to each can only be solved by uniform administration and a uniform control plan of sewage disposal and flood control works.

The Vallejo Sanitation and Flood Control District is hereby declared to be a body corporate and politic and as such shall have power:
