accordance with other applicable provisions of law.

SEC. 722. Section 87 of the San Diego Unified Port District Act (Chapter 67 of the Statutes of 1962, First Extraordinary Session), as amended by Section 18 of Chapter 399 of the Statutes of 1996, is amended to read:

Sec. 87. (a) The tide and submerged lands conveyed to the district by any city included in the district shall be held by the district and its successors in trust and may be used for purposes in which there is a general statewide purpose, as follows:

(1) For the establishment, improvement, and conduct of a harbor, and for the construction, reconstruction, repair, maintenance, and operation of wharves, docks, piers, slips, quays, and all other works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient, for the promotion and accommodation of commerce and navigation.
(2) For all commercial and industrial uses and purposes, and the construction, reconstruction, repair, and maintenance of commercial and industrial buildings, plants, and facilities.

(3) For the establishment, improvement, and conduct of airport and heliport or aviation facilities, including, but not limited to, approach, takeoff, and clear zones in connection with airport runways, and for the construction, reconstruction, repair, maintenance, and operation of terminal buildings, runways, roadways, aprons, taxiways, parking areas, and all other works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient for the promotion and accommodation of air commerce and air navigation.

(4) For the construction, reconstruction, repair, and maintenance of highways, streets, roadways, bridges, belt line railroads, parking facilities, power, telephone, telegraph or cable lines or landings, water and gas pipelines, and all other transportation and utility facilities or betterments incidental, necessary, or convenient for the promotion and accommodation of any of the uses set forth in this section.

(5) For the construction, reconstruction, repair, maintenance, and operation of public buildings, public assembly and meeting places, convention centers, parks, playgrounds, bathhouses and bathing facilities, recreation and fishing piers, public recreation facilities, including, but not limited to, public golf courses, and for all works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient for the promotion and accommodation of any of those uses.

(6) For the establishment, improvement, and conduct of small boat harbors, marinas, aquatic playgrounds, and similar recreational facilities, and for the construction, reconstruction, repair, maintenance, and operation of all works, buildings, facilities, utilities, structures, and appliances incidental, necessary, or convenient for the promotion and accommodation of any of those uses, including, but not limited to, snack bars, cafes, restaurants, motels, launching ramps, and hoists, storage sheds, boat repair facilities with cranes and marine ways, administration buildings, public restrooms, bait and tackle shops, chandleries, boat sales establishments, service stations and fuel docks, yacht club buildings, parking areas, roadways, pedestrian ways, and landscaped areas.

(7) For the establishment and maintenance of those lands for open space, ecological preservation, and habitat restoration.

(b) The district or its successors shall not, at any time, grant, convey, give, or alienate those lands, or any part thereof, to any individual, firm, or corporation for any purposes whatever. However, the district, or its successors, may grant franchises thereon for limited periods, not exceeding 66 years, for wharves and other public uses and purposes, and may lease those lands, or any part thereof, for limited periods, not
exceeding 66 years, for purposes consistent with the trusts upon which those lands are held by the State of California, and with the requirements of commerce and navigation, and collect and retain rents and other revenues from those leases, franchises, and privileges. Those lease or leases, franchises, and privileges may be for any and all purposes that do not interfere with commerce and navigation.

(c) Those lands shall be improved without expense to the state. However, nothing in this section shall preclude expenditures for the development of those lands for any public purpose not inconsistent with commerce, navigation, and fishery, by the state, or any board, agency, or commission thereof, when authorized or approved by the district, or preclude expenditures by the district of any funds received for that purpose from the state or any board, agency, or commission thereof.

(d) In the management, conduct, operation, and control of those lands or any improvements, betterments, or structures thereon, the district or its successors shall make no discrimination in rates, tolls, or charges for any use or service in connection therewith.

(e) The State of California shall have the right to use without charge any transportation, landing or storage improvements, betterments, or structures constructed upon those lands for any vessel or other watercraft, aircraft, or railroad owned or operated by the State of California.

(f) There is hereby reserved to the people of the State of California the right to fish in the waters on those lands with the right of convenient access to that water over those lands for that purpose.

(g) There is hereby excepted and reserved in the State of California all deposits of minerals, including oil and gas, in those lands, and to the State of California, or persons authorized by the State of California, the right to prospect for, mine, and remove deposits from those lands.

(h) Those lands shall be held subject to the express reservation and condition that the state may at any time in the future use those lands or any portion for highway purposes without compensation to the district, its successors or assigns, or any person, firm, or public or private corporation claiming under it, except that in the event improvements, betterments, or structures have been placed upon the property taken by the state for those purposes, compensation shall be made to the district, its successors, or assigns, or any person, firm, or public or private corporation entitled thereto for the value of his or her or its interest in the improvements, betterments, or structures taken or the damages to that interest.

(i) The State Lands Commission, at the cost of the district, shall survey and monument those lands and record a description and plat thereof in the office of the County Recorder of San Diego County.
Sec. 26.9. (a) After the establishment of a zone in which a groundwater charge may be levied, each owner or operator of a water-producing facility within the zone, until the time that the water-producing facility has been permanently abandoned, shall file with the district, on or before the 30th day following the end of collection periods established by the board, a water production statement setting forth the total production in acre-feet of water for the preceding collection period, a general description or number locating each water-producing facility, the method or basis of the computation of the water production, and the amount of the groundwater charge based on the computation. The collection periods may be established at intervals of not more than one year or less than one month. If no water has been produced from the water-producing facility during a preceding collection period, this statement shall be filed as provided for in this section, setting forth that no water has been produced during the applicable period. The statement shall be verified by a written declaration under penalty of perjury.

(b) The groundwater charge is payable to the district on or before the last date upon which the water production statements shall be filed, and is computed by multiplying the production in acre-feet of water for each classification as disclosed in the statement by the groundwater charge for each classification of water. The owner or operator of a water-producing facility that is being permanently abandoned shall give written notice of the abandonment to the district. If any owner or operator of a water-producing facility fails to pay the groundwater charge when due, the district shall charge interest at the rate of 1 percent each month on the delinquent amount of the groundwater charge.

(j) As to any tide and submerged lands conveyed to the district by a city that are subject to a condition contained in a grant of those lands to the city by the state that those lands shall be substantially improved within a designated period or else they shall revert to the state, that condition shall remain in effect as to those lands and shall be applicable to the district.

As to any tide and submerged lands conveyed to the district by a city that are not subject to this condition contained in a grant by the state and that have not heretofore been substantially improved, those lands, within 10 years from July 12, 1962, shall be substantially improved by the district without expense to the state. If the State Lands Commission determines that the district has failed to improve the lands as herein required, all right, title, and interest of the district in and to those lands shall cease and the lands shall revert and rest in the state.
