APPENDIX D
CALIFORNIA NATURAL DIVERSITY
DATABASE MAPS
FIGURE 2
Endangered (F)
DuPont Facility
Oakley, California

Federally Endangered Species known by the common name:
- Antioch Dunes evening-primrose
- Contra Costa goldfields
- Contra Costa wallflower
- Lange’s metalmark butterfly (* within half a mile)
- salt-marsh harvest mouse
- soft bird’s-beak

Legend
- Approximate Boundary of DuPont Oakley Site
- 5 meters above sea level
- Species recorded by CNDB
State Endangered Species known by the common name:
- Antioch Dunes evening-primrose
- Contra Costa wallflower
- salt-marsh harvest mouse

Legend
- Approximate Boundary of DuPont Oakley Site
- 5 meters above sea level
- Species recorded by CNDDB
FIGURE 5
Threatened (S)
DuPont Facility
Oakley, California

State Threatened Species known by the common name:
California black rail
Delta smelt
Swainson’s hawk
giant garter snake

Legend
- Approximate Boundary of DuPont Oakley Site
- 5 meters above sea level
- Species recorded by CNDDB

absolute scale 1:60,000 Meters
State Candidate Endangered Species known by the common name:
California tiger salamander
State Rare Species known by the common name:
Mason's lilaeopsis (* within half a mile)
soft bird's-beak

Legend
- Approximate Boundary of DuPont Oakley Site
- 5 meters above sea level
- Species recorded by CNDDB
