**NOTICE OF PUBLIC REVIEW AND INTENT TO ADOPT A
MITIGATED NEGATIVE DECLARATION**

(State CEQA Guidelines, sections 15072 and 15073)

A Mitigated Negative Declaration (MND) has been prepared by the California State Lands Commission (CSLC), as lead agency under the California Environmental Quality Act (CEQA) (Pub. Resources Code, § 21000 et seq.), in response to an application submitted by Chevron Pipe Line Company (CPL) for the Chevron Horizontal Directional Drill 3 (HDD3) Pipeline Replacement Project (Project). The MND was prepared in compliance with the requirements of CEQA, the State CEQA Guidelines (Cal. Code Regs., tit. 14, § 15000 et seq.), and CSLC Regulations (Cal. Code Regs., tit. 2, § 2901 et seq.).

Project Title: Chevron Horizontal Directional Drill 3 (HDD3) Pipeline Replacement Project

Project Location: Grizzly Island Wildlife and Birds Landing Areas in Solano County.

Project Description: CPL is proposing to replace an approximately 2.5-mile portion of an 8-inch lateral pipeline that traverses an area primarily within Suisun Marsh from Grizzly Island Road to Birds Landing Road in Solano County. The Project would replace this portion of CPL's Pittsburg-to-Sacramento lateral pipeline with a new segment of the same diameter as the existing pipe to address anomalies in that portion of the pipeline and reduce the potential for impacts from future maintenance and repairs in Suisun Marsh. The Project area would have two entry points from which the horizontal drilling would occur, located at the Birds Landing Work Site (BLWS) and Grizzly Island Work Site (GIWS). The BLWS is located north of Birds Landing Road in Solano County and is predominantly disturbed farmland. The GIWS is a predominantly upland area located north of Grizzly Island Road, within the Grizzly Island Wildlife Area managed by the California Department of Fish and Wildlife.

The Project MND can be downloaded, in PDF format, at www.slc.ca.gov (under "CEQA Notices"). Paper copies of the MND are also available for review at the locations below:
